

COVID-19 Impact and Recovery Report: Domestic Travel

Updated: July 14, 2020

In response to COVID-19, Destination Canada has established a framework and analytical approach to identify signals from consumer and industry behaviour to understand when, where and at what pace travel and tourism will resume.

Destination Canada collaborated with partners in destination marketing, media, technology and travel to identify these indicators and signals. The framework has identified multiple phases of recovery, which aligns with user sentiment and intent to travel. For smaller provinces and territories, it is cautioned that lower availability of data can impact the reliability of signals. Given these limitations, Destination Canada has provided an assessment for all provinces and territories to the best of its ability. The summary of the methodology and terms can be found in Methodological Notes.

As a compliment to this document, Destination Canada also provides updates to travel related measures that are currently in place for each province and territory, please reference the *Canadian Resident Sentiment & Travel Related Measures* document: <https://www.destinationcanada.com/en/coronavirus-updates/covid-19-research#canadianresidentsentiment>

Summary of current phase for each province and territory:

	Destination Canada's Overall Assessment of Each Market	Notes
British Columbia	IV Inter-Provincial	Inter-provincial travel searches and accommodation searches that are at moderate levels, combined with inter-provincial accommodation bookings that have nearly recovered to 2019 levels, indicate that British Columbia is in the Inter-Provincial phase.
Alberta	IV Inter-Provincial	Inter-provincial travel searches that have nearly recovered to 2019 levels, combined with moderate levels of inter-provincial accommodation searches and bookings, indicate that Alberta is in the Inter-Provincial phase.
Saskatchewan	II Hyper Local	Intra-provincial travel searches are at a level that has nearly recovered to 2019 levels. However, low levels of intra-provincial accommodation searches and bookings indicate that Saskatchewan has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
Manitoba	III Intra-Provincial	Intra-provincial travel searches that are above the same period in 2019, combined with moderate levels of intra-provincial accommodation bookings, indicate that Manitoba is in the intra-provincial phase.
Ontario	II Hyper Local	Intra-provincial travel searches are at a level that has nearly recovered to 2019 levels. However, Ontario continues to have a relatively high number of weekly new cases, low levels of intra-provincial accommodation searches and low to moderate levels of intra-provincial accommodation bookings. This indicates that Ontario has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
Quebec	IV Inter-Provincial	Inter-provincial travel searches that are at moderate levels, combined with inter-provincial accommodation bookings that have recently been at moderate levels, indicate that Quebec is in the Inter-Provincial phase.
New Brunswick	III Intra-Provincial	Intra-provincial travel searches have recovered to 2019 levels and New Brunswick continues to have a low number of weekly cases. Combined with moderate levels of intra-provincial accommodation bookings, these signals indicate that New Brunswick is in the Intra-Provincial phase.
Nova Scotia	II Hyper Local	Intra-provincial travel searches are above the same period in 2019 and Nova Scotia continues to have a low number of weekly COVID-19 cases. However, low levels of intra-provincial accommodation searches and bookings indicate that Nova Scotia has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
Prince Edward Island	II Hyper Local	Intra-provincial travel searches are fluctuating at levels similar to the same period in 2019 and Prince Edward Island continues to have a low number of weekly COVID-19 cases. However, low levels of intra-provincial accommodation searches and bookings indicate that Prince Edward Island has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
Newfoundland & Labrador	III Intra-Provincial	Intra-provincial travel searches are above the same period in 2019 and Newfoundland & Labrador continues to have a low number of weekly COVID-19 cases. Combined with moderate levels of intra-provincial accommodation bookings in recent weeks, these signals indicate that Newfoundland & Labrador is in the Intra-Provincial phase.
Yukon	II Hyper Local	Intra-territorial travel searches are at a level that has nearly recovered to 2019 levels. However, very low levels of intra-territorial accommodation searches and bookings indicate that Yukon has not yet moved into the Intra-Territorial phase and continues to be in the Hyper Local phase.
Northwest Territories	III Intra-Territorial	Intra-territorial travel searches are at levels that are above 2019 levels and intra-territorial accommodation bookings are fluctuating between moderate levels and levels that are above the same period in 2019. These signals, combined with a low number of weekly COVID-19 cases, indicate that the Northwest Territories is in the Intra-Territorial phase.
Nunavut	III Intra-Territorial	Nunavut has recorded no confirmed COVID-19 cases. Intra-territorial travel searches are fluctuating at low to moderate levels and intra-territorial accommodation searches have been fluctuating but have recently been at levels above the same period in 2019. This indicates that Nunavut is in the Intra-Territorial phase.

British Columbia	IV Inter-Provincial	Inter-provincial travel searches and accommodation searches that are at moderate levels, combined with inter-provincial accommodation bookings that have nearly recovered to 2019 levels, indicate that British Columbia is in the Inter-Provincial phase.
-------------------------	-------------------------------	--

British Columbia Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	○	●	○	○	YOY intra-provincial travel searches are at a level that is above the same period in 2019. YOY inter-provincial searches are at moderate levels and have been trending positively since the week ending April 12, 2020.
Accommodation Searches on OTA	○	○	○	●	○	○	YOY intra-provincial accommodation searches have been steadily increasing since the week ending April 12, 2020 and are at a level that has nearly recovered to 2019 levels. YOY inter-provincial accommodation searches are at moderate levels and have been steadily increasing since the week ending April 12, 2020.
Rate of Hotel Booking	○	○	○	●	○	○	YOY intra-provincial accommodation bookings are at a level that is similar to the same period in 2019. Inter-provincial accommodation bookings have been steadily increasing since the week ending April 5, 2020 and are at a level that has nearly recovered to 2019 levels.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from BC to other inter-provincial destinations is down 86% compared to the same period in 2019. This is also tied for the strongest week for YOY air bookings since March 2020.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in British Columbia for the week ending July 12, 2020 was 106. This is the first week since the week ending May 10, 2020 that British Columbia has had more than 100 new cases in a week.
Dining Search Index	○	○	○	●	○	○	YOY intra-provincial dining searches have been trending upwards since the week ending May 17, 2020 and are at a level that has nearly recovered to 2019 levels. YOY inter-provincial dining searches have been trending upwards since the week ending May 24, 2020 and are at moderate levels.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been steadily increasing since the week ending May 17, 2020. YOY inter-provincial activities & events searches are at low to moderate levels, decreasing slightly from the week ending July 5, 2020, perhaps given a decline after the July long weekend.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Alberta	IV Inter-Provincial	Inter-provincial travel searches that have nearly recovered to 2019 levels, combined with moderate levels of inter-provincial accommodation searches and bookings, indicate that Alberta is in the Inter-Provincial phase.
----------------	-------------------------------	--

Alberta Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	○	●	○	○	YOY intra-provincial travel are at a level that is above the same period in 2019. YOY inter-provincial travel searches have been steadily increasing since the week ending April 12, 2020 and are at a level that has nearly recovered to 2019 levels.
Accommodation Searches on OTA	○	○	○	●	○	○	YOY intra-provincial accommodation searches are at moderate levels and have been steadily increasing since the week ending April 19, 2020. YOY inter-provincial accommodation searches are at moderate levels and have been steadily increasing since the week ending April 19, 2020.
Rate of Hotel Booking	○	○	○	●	○	○	YOY intra-provincial accommodation bookings have been steadily increasing since the week ending April 12, 2020 and are at a level that has nearly recovered to 2019 levels. YOY inter-provincial accommodation bookings are at moderate levels and have been trending positively since the week ending April 12, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Alberta to other inter-provincial destinations is down 77% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -76% YOY.
New COVID Cases	○	●	○	/	/	/	The number of weekly new cases in Alberta for the week ending July 12, 2020 was 337. This represents an increase compared to 263 new cases the week ending July 5, 2020.
Dining Search Index	○	○	○	●	○	○	YOY intra-provincial & inter-provincial dining searches are at a level that is similar to the same period in 2019.
Activities & Events Search Index	○	○	○	●	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been plateaued since the week ending June 14, 2020. YOY inter-provincial activities & events searches are at moderate levels and have been trending upwards since the week ending May 3, 2020.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Saskatchewan	II Hyper Local	Intra-provincial travel searches are at a level that has nearly recovered to 2019 levels. However, low levels of intra-provincial accommodation searches and bookings indicate that Saskatchewan has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
---------------------	--------------------------	--

Saskatchewan Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	●	○	○	○	○	YOY intra-provincial travel searches have been trending upwards since the week ending April 12, 2020 and are at a level that has nearly recovered to 2019 levels.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low levels but have been trending upwards since the week ending June 7, 2020.
Rate of Hotel Booking	●	○	○	○	○	○	YOY intra-provincial accommodation bookings are at low levels but have been steadily increasing since the week ending May 31, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Saskatchewan to other inter-provincial destinations is down 85% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending July 5, 2020 at -81% YOY.
New COVID Cases	○	●	○	/	/	/	The number of weekly new cases in Saskatchewan for the week ending July 12, 2020 was 19. This is stable compared to 18 new cases the week ending July 5, 2020.
Dining Search Index	○	●	○	○	○	○	YOY intra-provincial dining searches have been plateaued since the week ending June 14, 2020 at levels that have nearly recovered to 2019 levels.
Activities & Events Search Index	○	●	○	○	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been trending upwards since the week ending May 17, 2020.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Manitoba	III Intra-Provincial	Intra-provincial travel searches that are above the same period in 2019, combined with moderate levels of intra-provincial accommodation bookings, indicate that Manitoba is in the intra-provincial phase.
-----------------	--------------------------------	---

Manitoba Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches have been at a level that is above the same period in 2019 since the week ending June 7, 2020.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low to moderate levels but have been trending positively since the week ending April 12, 2020.
Rate of Hotel Booking	○	○	●	○	○	○	YOY intra-provincial accommodation bookings are at moderate levels and have been trending upwards since the week ending April 12, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Manitoba to other inter-provincial destinations is down 87% compared to the same period in 2019. This is also tied for the strongest week for YOY air bookings since March 2020.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in Manitoba for the week ending July 12, 2020 was zero. This is the first week that Manitoba has not recorded any new weekly cases since the beginning of March. Manitoba has had 11 weeks in a row with less than 10 new cases.
Dining Search Index	○	○	●	○	○	○	YOY intra-provincial dining searches are at a level that is slightly above 2019 levels.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been trending upwards since the week ending April 19, 2020.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Ontario	II Hyper Local	Intra-provincial travel searches are at a level that has nearly recovered to 2019 levels. However, Ontario continues to have a relatively high number of weekly new cases, low levels of intra-provincial accommodation searches and low to moderate levels of intra-provincial accommodation bookings. This indicates that Ontario has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
----------------	--------------------------	---

Ontario Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index							YOY intra-provincial travel searches have been steadily increasing since the week ending April 12, 2020 and are at a level that has nearly recovered to 2019 levels.
Accommodation Searches on OTA							YOY intra-provincial accommodation searches are at low levels but have been steadily increasing since the week ending June 7, 2020.
Rate of Hotel Booking							YOY intra-provincial accommodation bookings are at low to moderate levels but have been steadily increasing since the week ending May 31, 2020.
Rate of Air Travel							For the week ending July 12, 2020, YOY air bookings from Ontario to other inter-provincial destinations is down 85% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending July 5, 2020 at -84% YOY.
New COVID Cases							The number of weekly new cases in Ontario for the week ending July 5, 2020 was 929. This is the first time Ontario has recorded under 1,000 new weekly cases since March 22, 2020.
Dining Search Index							YOY intra-provincial dining searches are at low to moderate levels but have been steadily increasing since the week ending June 14, 2020.
Activities & Events Search Index							YOY intra-provincial activities & events searches are at low levels and have been fluctuating since the week ending May 24, 2020.

Quebec	IV Inter-Provincial	Inter-provincial travel searches that are at moderate levels, combined with inter-provincial accommodation bookings that have recently been at moderate levels, indicate that Quebec is in the Inter-Provincial phase.
---------------	-------------------------------	--

Quebec Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	○	●	○	○	YOY intra-provincial travel searches are at a level that is above the same period in 2019. YOY inter-provincial searches are at moderate levels and have been trending positively since the week ending May 17, 2020.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial & inter-provincial accommodation searches are at low to moderate levels but have been trending upwards since the week ending May 17, 2020.
Rate of Hotel Booking	○	○	○	●	○	○	YOY intra-provincial accommodation bookings are at moderate levels and have been trending upwards since the week ending May 17, 2020. YOY inter-provincial accommodation bookings are at low to moderate levels after a slight decline compared to the week ending July 5, 2020. Otherwise, this metric has been trending upwards since the week ending April 12, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Quebec to other inter-provincial destinations is down 86% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -83% YOY.
New COVID Cases	○	●	○	/	/	/	The number of weekly new cases in Quebec for the week ending July 12, 2020 was 658. This represents a decrease in the number of new cases compared to 784 for the week ending July 5, 2020.
Dining Search Index	○	○	●	○	○	○	YOY intra-provincial dining searches are at moderate levels and have been steadily increasing since the week ending May 24, 2020. YOY inter-provincial dining searches are also at moderate levels and have been steadily increasing since the week ending May 17, 2020.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches are at moderate levels and have been steadily increasing since the week ending May 24, 2020. YOY inter-provincial activities & events searches have been steadily increasing since the week ending May 17, 2020. However, a decrease from the week ending July 5, 2020 has brought intra-provincial activities & events searches back down to low levels.

Legend: Current phase ● Not there yet ○ Signal not applicable □

New Brunswick	III Intra-Provincial	Intra-provincial travel searches have recovered to 2019 levels and New Brunswick continues to have a low number of weekly cases. Combined with moderate levels of intra-provincial accommodation bookings, these signals indicate that New Brunswick is in the Intra-Provincial phase.
----------------------	--------------------------------	--

New Brunswick Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches are at a level that is similar to the same period in 2019.
Accommodation Searches on OTA	○	○	●	○	○	○	YOY intra-provincial accommodation searches had been steadily increasing since the week ending April 12, 2020. However, decreases since the week ending June 28, 2020 has brought intra-provincial accommodation searches back down to low levels.
Rate of Hotel Booking	○	○	●	○	○	○	YOY intra-provincial accommodation bookings had been trending positively since the week ending April 12, 2020. Although levels remain moderate, intra-provincial accommodation bookings have seen decreases since the week ending June 28, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from New Brunswick to other inter-provincial destinations is down 95% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -88% YOY.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in New Brunswick for the week ending July 12, 2020 was 1. New Brunswick has had 4 weeks in a row with 10 new cases or less.
Dining Search Index	○	○	●	○	○	○	YOY intra-provincial dining searches are at a level that is slightly above the same period in 2019.
Activities & Events Search Index	○	○	●	○	○	○	YOY intra-provincial activities & events searches have been fluctuating in recent weeks but have generally been trending upwards since the week ending April 12, 2020. Intra-provincial activities & events searches are at a level that is similar to 2019 levels.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Nova Scotia	II Hyper Local	Intra-provincial travel searches are above the same period in 2019 and Nova Scotia continues to have a low number of weekly cases. However, low levels of intra-provincial accommodation searches and bookings indicate that Nova Scotia has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
--------------------	--------------------------	--

Nova Scotia Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	●	○	○	○	○	YOY intra-provincial travel searches are at a level that is above the same period in 2019.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low levels but have been plateaued since the week ending June 21, 2020.
Rate of Hotel Booking	●	○	○	○	○	○	YOY intra-provincial accommodation bookings are at low to moderate levels but have been increasing since the week ending May 24, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Nova Scotia to other inter-provincial destinations is down 88% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending June 28, 2020 at -78% YOY.
New COVID Cases	○	●	○	/	/	/	The number of weekly new cases in Nova Scotia for the week ending July 12, 2020 was 2. Nova scotia has had 8 weeks in a row with 10 new cases or less.
Dining Search Index	○	●	○	○	○	○	YOY intra-provincial dining searches are at moderate levels and have been plateaued since the week ending June 14, 2020.
Activities & Events Search Index	●	○	○	○	○	○	YOY intra-provincial activities & events searches are at low to moderate levels and been trending upwards since the week ending May 17, 2020.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Prince Edward Island	II Hyper Local	Intra-provincial travel searches are fluctuating at levels similar to the same period in 2019 and Prince Edward Island continues to have a low number of weekly cases. However, low levels of intra-provincial accommodation searches and bookings indicate that Prince Edward Island has not yet moved into the Intra-Provincial phase and continues to be in the Hyper Local phase.
-----------------------------	--------------------------	---

Prince Edward Island Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	●	○	○	○	○	YOY intra-provincial travel searches have been fluctuating, sitting at levels that are just above or below 2019 levels since the week ending June 7, 2020.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches are at low levels and have generally been trending upwards since the week ending May 24, 2020.
Rate of Hotel Booking	●	○	○	○	○	○	YOY intra-provincial accommodation bookings are at low levels and have been fluctuating since the week ending April 26, 2020.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Prince Edward Island to other inter-provincial destinations is down 95% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending July 5, 2020 at -91% YOY.
New COVID Cases	○	●	○	/	/	/	The number of weekly new cases in Prince Edward Island for the week ending July 12, 2020 was 2. Prior to the week ending July 5, 2020, Prince Edward Island had no new cases since the week ending May 10, 2020.
Dining Search Index	○	●	○	○	○	○	YOY intra-provincial dining searches are at moderate levels and have been trending upwards since the week ending May 31, 2020.
Activities & Events Search Index	●	○	○	○	○	○	YOY intra-provincial activities & events searches are at very low levels and have been plateaued since the week ending March 22, 2020.

Legend: Current phase ● Not there yet ○ Signal not applicable □

Newfoundland & Labrador	III Intra-Provincial	Intra-provincial travel searches are above the same period in 2019 and Newfoundland & Labrador continues to have a low number of weekly cases. Combined with moderate levels of intra-provincial accommodation bookings in recent weeks, these signals indicate that Newfoundland & Labrador is in the Intra-Provincial phase.
------------------------------------	--------------------------------	--

Newfoundland & Labrador Assessment Summary:

	Phase						Analysis
	I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l	
Travel Search Index	○	○	●	○	○	○	YOY intra-provincial travel searches are at a level that is above the same period in 2019.
Accommodation Searches on OTA	●	○	○	○	○	○	YOY intra-provincial accommodation searches have been plateaued at low to moderate levels since the week ending June 28, 2020.
Rate of Hotel Booking	○	○	●	○	○	○	YOY intra-provincial accommodation bookings have decreased slightly since the week ending June 28, 2020, moving from moderate levels back down at low to moderate levels.
Rate of Air Travel	/	/	/	○	○	○	For the week ending July 12, 2020, YOY air bookings from Newfoundland & Labrador to other inter-provincial destinations is down 85% compared to the same period in 2019. The strongest week for air bookings since March 2020 was the week ending July 5, 2020 at -76% YOY.
New COVID Cases	○	○	●	/	/	/	The number of weekly new cases in Newfoundland & Labrador for the week ending July 12, 2020 was 1. Newfoundland & Labrador had no new cases since the week ending June 7, 2020.
Dining Search Index	○	●	○	○	○	○	YOY intra-provincial dining searches are at low to moderate levels and have plateaued since the week ending June 7, 2020.
Activities & Events Search Index	○	●	○	○	○	○	YOY intra-provincial activities & events searches had been trending upwards since the week ending May 17, 2020. Although still at moderate levels, intra-provincial activities & events searches have seen decreases since the week ending July 5, 2020..

METHODOLOGICAL NOTES

I. Recovery Signals: The Recovery Measures are listed in their order of importance in understanding travel behaviour, with the primary measures in black and supporting measures in dark gray. A brief description of each measure is provided below.

Destination Canada has developed a framework to understand the phases of recovery of the travel market. These phases are:

- I. **COVID-19 Response:** Governments are responding with measures such as shelter in place and quarantines. Movement is restricted and travel is either not possible, desirable or encouraged.
- II. **Hyper Local Travel:** Some restrictions have been lifted and movement within local areas is possible. Governments will likely recommend that places ensure physical distancing while supporting local economies. Some travel may be taking place, such as day trips or overnight with friends and family.
- III. **Intra-Provincial or Intra-Territorial Travel:** Residents are booking trips within their province or territory. Travel by vehicle within a province/territory is possible and not discouraged.
- IV. **Inter-Provincial Travel:** Residents are booking trips in other provinces or territories. Travel by multiple means (air, car, trains, etc.) within the country, across provincial/territorial boundaries.
- V. **Tentative International Travel:** Some international travel, such as family related or urgent business. There may be some leisure travel from less risk averse travellers seek to capitalize on reduced prices or increases availability. Airlines may not have restored international routes beyond major hubs.
- VI. **Regularized International Travel:** Regular international travel. Some business meetings and events are re-introduced, leisure travel is closer to pre-COVID-19 levels.

A filled-in dot signifies that Destination Canada assesses we are in that phase of travel. An empty dot means we have not yet reached that indicator, and the crossed off box would signify that the measure does not apply for that phase of recovery. Some measures are currently being developed and will be updated as further progress is made.

II. Description of the Measures

- **Travel Intent Search Index:** Google search engine queries for travel-related keywords in 2020 compared to 2019 searches, broken down by week (i.e. week of April 19, 2020 vs week of April 19, 2019). Available for each market's intra-provincial/territorial, inter-provincial/territorial and international travel search terms.
- **Rate of Accommodation Searches:** Weekly searches in 2020 for accommodation on a major online travel agency (OTA) against a rate of 2019 weekly searches, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation searches. This is provided as a rate rather than a volume of searches.
- **Rate of Accommodation Bookings:** Accommodation bookings in 2020 on a major OTA against a rate of 2019 bookings, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation bookings. This is provided as a rate rather than a volume of bookings.
- **Rate of Air Travel:** The volume of air bookings to other provinces/territories versus 2019 air bookings, broken down by week, as provided by IATA.
- **Weekly New COVID-19 Confirmed Cases:** The weekly total of new confirmed COVID-19 cases, as provided by the Government of Canada Health Infobase. Number of cases in the market and within other regions of Canada will likely be a determining factor for both governments allowing phased return of travel, as well as consumer confidence in traveling to a market.
- **Dining Search Index:** 2020 searches for dining related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international dining related search terms. This is provided as an index rather than a volume of searches.
- **Attractions & Events Search Index:** 2020 searches for attractions and events related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international attractions and events related search terms. This is provided as an index rather than a volume of searches.
