

# COVID-19 Impact and Recovery Report: Domestic Travel

Updated: April 13, 2021

In response to COVID-19, Destination Canada has established a framework and analytical approach to identify signals from consumer and industry behaviour to understand when, where and at what pace travel and tourism will resume.

Destination Canada collaborated with partners in destination marketing, media, technology and travel to identify these indicators and signals. The framework has identified multiple phases of recovery, which aligns with user sentiment and intent to travel. For smaller provinces and territories, it is cautioned that lower availability of data can impact the reliability of signals. Given these limitations, Destination Canada has provided an assessment for all provinces and territories to the best of its ability. The summary of the methodology and terms can be found in Methodological Notes.

As a complement to this document, Destination Canada also provides updates to travel related measures that are currently in place for each province and territory, please reference the *Travel Related Measures* document:

<https://www.destinationcanada.com/en/coronavirus-updates/covid-19-research#canadianresidentsentiment>

**Please note: An increase in search and bookings does not imply that residents are non-compliant with any current health restrictions in place, rather that there is an increased interest in travel.**

## Summary of current phase for each province and territory, as of April 13, 2021:

Destination Canada assesses that Alberta and Quebec progressed into the Inter-Provincial phase for the week ending March 14 and Newfoundland & Labrador progressed into the Intra-Provincial phase for the week ending April 4. This indicates that Alberta and Quebec residents are booking trips outside of their province and Newfoundland & Labrador residents are booking trips within their own province; however, actual travel could take place in the near future or at a later date.

	Travel Search Index	Accommodation Searches on OTA	Rate of Hotel Booking	Rate of Air Travel	Overall Assessment	Rate of New Weekly Cases Per 100,000 Pop	14-day self-isolation required for residents returning from out-of-province for domestic leisure travel?	14-day self-isolation required for residents returning from international travel? <sup>10</sup>
British Columbia	IV	III	III		III	152.1	No	Yes
Alberta	IV	III	IV		IV	194.4	No	Yes
Saskatchewan	III	I	I		II	149.3	No	Yes
Manitoba	III	I	I		II	57.6	Yes <sup>1</sup>	Yes
Ontario	IV	I	I		II	169.7	No requirement, but 14-day self-isolation is strongly advised for all residents re-entering Ontario from outside of the province <sup>2</sup>	Yes
Quebec	IV	IV	IV		IV	119.8	No	Yes
New Brunswick	III	III	III		III	9.0	Yes <sup>3</sup>	Yes
Nova Scotia	III	III	III		III	3.0	Yes, exception for residents returning directly from Prince Edward Island and Newfoundland & Labrador <sup>4</sup>	Yes
Prince Edward Island	III	III	III		III	1.3	Yes <sup>5</sup>	Yes
Newfoundland & Labrador	III	III	III		III	1.7	Yes <sup>6</sup>	Yes
Yukon	III	III	I		II	0.0	Yes <sup>7</sup>	Yes

Nunavut	III	III		III	III	0.0	Yes, exception for residents returning directly from Northwest Territories or Churchill, MB <sup>9</sup>	Yes

I COVID-19 Response	II Hyper Local	III Intra-prov	IV Inter-prov	V Tentative Int'l	VI Regularized Int'l
Movement is restricted and travel is either not possible, desirable or encouraged.	Movement within local areas is possible but trips are not being booked within their province or territory.	Residents are booking trips within their province or territory.	Residents are booking trips within the country, across provincial or territorial boundaries.	Some international travel, such as family related or urgent business. Some leisure travel from less risk averse travellers.	Some business travel is re-introduced and leisure travel is closer to pre-COVID-19 levels.

Timeline of overall travel assessment for each province and territory:

## METHODOLOGICAL NOTES

**I. Recovery Signals:** The Recovery Measures are listed in their order of importance in understanding travel behaviour, with the primary measures in black and supporting measures in dark gray. A brief description of each measure is provided below.

Destination Canada has developed a framework to understand the phases of recovery of the travel market. These phases are:

- I. **COVID-19 Response:** Residents are not searching for or booking trips within their local area.
- II. **Hyper Local Travel:** Residents are not booking trips within their province or territory.
- III. **Intra-Provincial or Intra-Territorial Travel:** Residents are booking trips within their province or territory; however, actual travel could take place in the near future or at a later date.
- IV. **Inter-Provincial Travel:** Residents are booking trips in other provinces or territories; however, actual travel could take place in the near future or at a later date.
- V. **Tentative International Travel:** Some international bookings are occurring at reduced levels compared to 2019 but there are fluctuations in booking behaviours.
- VI. **Regularized International Travel:** International bookings are occurring at levels that are stable.

A filled-in dot signifies that Destination Canada assesses we are in that phase of travel. An empty dot means we have not yet reached that indicator, and the crossed off box would signify that the measure does not apply for that phase of recovery. Some measures are currently being developed and will be updated as further progress is made.

## II. Description of the Measures

- **Travel Intent Search Index:** Google search engine queries for travel-related keywords in 2020 compared to 2019 searches, broken down by week (i.e. week of April 19, 2020 vs week of April 19, 2019). Available for each market's intra-provincial/territorial, inter-provincial/territorial and international travel search terms.
- **Rate of Accommodation Searches:** Weekly searches in 2020 for accommodation on a major online travel agency (OTA) against a rate of 2019 weekly searches, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation searches. This is provided as a rate rather than a volume of searches.
- **Rate of Accommodation Bookings:** Accommodation bookings in 2020 on a major OTA against a rate of 2019 bookings, broken down by week. Available for each market's intra-provincial/territorial and inter-provincial/territorial accommodation bookings. This is provided as a rate rather than a volume of bookings.
- **Rate of Air Travel:** The volume of air bookings to other provinces/territories versus 2019 air bookings, broken down by week, as provided by IATA.
- **Dining Search Index:** 2020 searches for dining related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international dining related search terms. This is provided as an index rather than a volume of searches.
- **Attractions & Events Search Index:** 2020 searches for attractions and events related keywords compared to 2019 searches, broken down by week. Available for each market's intra-provincial/territorial, inter-provincial/territorial and international attractions and events related search terms. This is provided as an index rather than a volume of searches.
- **Weekly New COVID-19 Confirmed Cases:** The weekly total of new confirmed COVID-19 cases and the rate of new weekly cases per 100,000 population, as provided by the Government of Canada Health Infobase. Number of cases in the market and within other regions of Canada will likely be a determining factor for both governments allowing phased return of travel, as well as consumer confidence in traveling to a market.
