COVID-19 Impact and Recovery Report: Travel-Related Measures

Updated: October 20, 2021

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

1. Travel-Related Measures: A summary of the travel and tourism-related measures in place in each province and territory. Current travel restrictions and self-isolation requirements are also available on Destination Canada’s website: https://caen-keepexploring.canada.travel/covid-19-traveller-guidance
2. Methodological Notes: An explanation of the methodologies in the different sections and relevant sources.

1. TRAVEL-RELATED MEASURES

As of October 30, travellers aged 12 years and older departing from Canadian airports, and on VIA Rail and Rocky Mountaineer trains, will be required to be fully vaccinated in order to travel. To qualify as fully vaccinated, travellers must have received the full series of an accepted COVID-19 vaccine (or a full series of a combination of accepted vaccines), with the last dose at least 14 full days prior to the date of travel. For those in the process of being vaccinated, there will be a short transition period where they will be able to travel if they can show a valid COVID-19 molecular test within 72 hours of travel. As of November 30, all travellers aged 12 years and older must be fully vaccinated, with very limited exceptions. Please consult the Government of Canada website for the latest federal travel requirements: https://travel.gc.ca/travel
covid

In addition to federal government travel requirements, individual provinces and territories have implemented measures on travel between provinces and territories. The table below outlines self-isolation requirements for domestic travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information, collected by provincial and territorial tourism marketing authorities and relevant tourism departments, is current as of October 20, 2021.

### Travel Measures

#### Traveller self-isolation required?

As of October 20, 2021, some Indigenous communities in BC are not welcoming visitors at this time. Indigenous tourism BC has a list of Indigenous experiences in the province that are currently open.

This document outlines the methodologies in the different sections and relevant sources.
**Travel realised required?**  
No self-isolation or proof of vaccination required for domestic travellers entering Quebec.

As of October 4, domestic travellers entering Nova Scotia from all provinces and territories (including Atlantic provinces) must follow self-isolation protocol dependent on vaccination status: 2 doses at least 14 days before arrival - no self-isolation; 1 or 0 doses – 7 day self-isolation and 2 negative tests.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of September 28, all travellers over the age of 8 entering Prince Edward Island, regardless of vaccination status, are asked to get tested at least once between day 4 and day 8 after arrival. Unvaccinated children under 12 years of age are advised to self-isolate for 14 days after arrival.

As of September 25, residents of Prince Edward Island are advised to avoid non-essential out of province travel.

As of October 4, no travel restrictions for domestic travellers entering Nova Scotia from all provinces and territories (including Atlantic provinces), but they must complete the Safe Road Trip app and enter self-isolation protocol dependent on vaccination status.

As of October 4, fully vaccinated foreign nationals can travel to Prince Edward Island and are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

No travel restrictions for domestic travellers entering Quebec.

Fully vaccinated foreign nationals can travel to Prince Edward Island provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**Travel restrictions?**  
As of October 4, fully vaccinated domestic travellers entering Prince Edward Island must follow the self-isolation protocol dependent on vaccination status: 2 doses at least 14 days before arrival - no self-isolation; 1 or 0 doses – 7 day self-isolation and 2 negative tests.

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

No self-isolation required for fully vaccinated domestic travellers entering New Brunswick. Unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

Fully vaccinated foreign nationals who have a full PEI Pass can travel to Prince Edward Island provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

Fully vaccinated foreign nationals can travel to Nova Scotia provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

Fully vaccinated foreign nationals can travel to New Brunswick provided they meet specific entry and testing requirements and have no negative test. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

All Canadian residents entering New Brunswick, including New Brunswick residents re-entering the province, must provide, with restrictions for those who are not fully vaccinated or unvaccinated.

**Quebec**

No self-isolation or proof of vaccination required for domestic travellers entering Quebec.

As of October 4, fully vaccinated domestic travellers entering Prince Edward Island must follow the self-isolation protocol dependent on vaccination status: 2 doses at least 14 days before arrival - no self-isolation; 1 or 0 doses – 7 day self-isolation and 2 negative tests.

No self-isolation required for fully vaccinated domestic travellers entering New Brunswick. Unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

As of October 4, no travel restrictions for domestic travellers entering Nova Scotia from all provinces and territories (including Atlantic provinces), but they must complete the Safe Road Trip app and enter self-isolation protocol dependent on vaccination status.

As of October 4, fully vaccinated foreign nationals can travel to Prince Edward Island and are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, fully vaccinated foreign nationals can travel to Nova Scotia provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of October 4, fully vaccinated foreign nationals can travel to New Brunswick provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**New Brunswick**

No self-isolation or proof of vaccination required for domestic travellers entering Quebec.

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, fully vaccinated foreign nationals can travel to Prince Edward Island provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of October 4, fully vaccinated foreign nationals can travel to Nova Scotia provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of October 4, fully vaccinated foreign nationals can travel to New Brunswick provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**Nova Scotia**

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, no travel restrictions for domestic travellers entering Nova Scotia from all provinces and territories (including Atlantic provinces), but they must complete the Safe Road Trip app and enter self-isolation protocol dependent on vaccination status.

As of October 4, fully vaccinated foreign nationals can travel to Prince Edward Island and are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, fully vaccinated foreign nationals can travel to Nova Scotia provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of October 4, fully vaccinated foreign nationals can travel to New Brunswick provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**Prince Edward Island**

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of September 28, fully vaccinated people aged 12 or older entering Prince Edward Island are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, no travel restrictions for domestic travellers entering Nova Scotia from all provinces and territories (including Atlantic provinces), but they must complete the Safe Road Trip app and enter self-isolation protocol dependent on vaccination status.

As of October 4, fully vaccinated foreign nationals can travel to Prince Edward Island and are not required to quarantine upon entering Prince Edward Island, but must follow public health measures that include avoiding crowded settings.

As of October 4, fully vaccinated foreign nationals can travel to Nova Scotia provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of October 4, fully vaccinated foreign nationals can travel to New Brunswick provided they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**Newfoundland and Labrador**

No self-isolation required for fully vaccinated domestic travellers entering Prince Edward Island.

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

Fully vaccinated Canadian residents have no testing or self-isolation requirements. Mixed groups of vaccinated and unvaccinated adult and dependent children under the age of 12 travelling with fully vaccinated adults are not required to self-isolate.

No self-isolation or proof of vaccination required for domestic travellers entering Yukon.

As of September 28, fully vaccinated people aged 12 or older entering New Brunswick, unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.

Fully vaccinated domestic travellers entering Yukon for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Mixed groups of vaccinated and unvaccinated adult and dependent children under the age of 12 travelling with fully vaccinated adults are not required to self-isolate upon entering Yukon, but must follow public health measures that include avoiding crowded settings.

The Government of Canada has specific guidelines for driving to or from Alaska through Canada. Read the latest Public Health Agency of Canada requirements during the COVID-19 period.

**Northwest Territories**

- Unvaccinated children (and those travelling with them) will not be able to forgo the mandatory 14-day isolation requirement. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website.

- No self-isolation upon entering the Northwest Territories for fully vaccinated and who have received an exemption after completing the 14-day self-isolation period, or from Nunavut, Inuvik, Fort Smith, Hay River, Fort Simpson and Norman Wells require a COVID-19 test on days 1 and 14. Mandatory 14-day self isolation for partially vaccinated admitted travellers with a COVID-19 test on day 9. Fully vaccinated 10 day self isolation for unvaccinated admitted travellers, including children under 12 and household members who did not travel, with a COVID-19 test on day 10. Unvaccinated admitted travellers prior to boarding a plane to Nunavut.

- Mandatory 8 day self isolation for family members who did no travel, with a COVID-19 test on day 8.

- Travellers entering the Northwest Territories must file a self isolation plan, regardless of vaccination status. To fill out a self isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website.

- No travel restrictions upon entering the Northwest Territories for fully vaccinated and who have received an exemption after completing the 14-day self-isolation period, or from Nunavut, Inuvik, Fort Smith, Hay River, Fort Simpson and Norman Wells require a COVID-19 test on days 1 and 14. Mandatory 14-day self isolation for partially vaccinated admitted travellers with a COVID-19 test on day 9. Fully vaccinated 10 day self isolation for unvaccinated admitted travellers, including children under 12 and household members who did not travel, with a COVID-19 test on day 10. Unvaccinated admitted travellers prior to boarding a plane to Nunavut.

Most Parks Canada places will be open and welcoming visitors with adjustments to access and services. Access to visitor facilities and services may be limited. Please consult the Parks Canada website for an updated list of specific Parks Canada locations with special instructions: https://www.pc.gc.ca/en/voyage-travel/secu-rite-safety/covid-19-infocations

Most provinces and territories have implemented a framework to guide re-opening strategies catered to their individual circumstances. Since each province and territory is starting from a different baseline to implement the reopening of their local economy, the phases and stages are not congruent across jurisdictions. The table below outlines the current status of restrictions on tourism-related sectors as of October 20, 2021. Unless noted, persons must gather and business must operate with sufficient social distancing measures in place. Many destinations require non-medical masks to be worn and all visitors should plan on having masks ready if needed.

Alberta 26

For those who choose to provide proof of vaccination to access non-essential businesses and events until October 26, anyone aged 12 and older must show proof of one dose taken at least 2 weeks earlier.

- Masking is mandatory in all indoor public spaces and on public transit.

- All licensed establishments, including restaurants, bars and other licensed establishments, must implement the Restriction Exemption Program to resume regular operations. To access, people are required to show proof of paid or negative COVID-19 test taken within 72 hours or a medical exemption. For establishments that do not implement the Restriction Exemption Program, not permitted, outdoor dining will be permitted for 1 household with up to 6 people per table or 2 close contacts for those living alone. Masking must be worn at all times. A paid COVID-19 test must be taken by 11pm.

- As of October 19, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including banquet facilities, theatres, casinos, movie theatres, concert venues, museums, and indoor recreational and ticketed sporting events.

- As of October 18, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including conference centres, meeting rooms and banquet facilities.

- There are no limits on gatherings at private residences.

Saskatchewan 27

For those who choose to provide proof of vaccination to access non-essential businesses and events until October 26, anyone aged 12 and older must show proof of one dose taken at least 2 weeks earlier.

- Masks are mandatory in all indoor public spaces.

- All licensed establishments, including restaurants, bars and other licensed establishments, must implement the Restriction Exemption Program to resume regular operations. To access, people are required to show proof of paid or negative COVID-19 test taken within 72 hours or a medical exemption. For establishments that do not implement the Restriction Exemption Program, not permitted, outdoor dining will be permitted for 1 household with up to 6 people per table or 2 close contacts for those living alone. Masking must be worn at all times. A paid COVID-19 test must be taken by 11pm.

- As of October 19, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including banquet facilities, theatres, casinos, movie theatres, concert venues, museums, and indoor recreational and ticketed sporting events.

- As of October 18, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including conference centres, meeting rooms and banquet facilities.

- There are no limits on gatherings at private residences.

Manitoba 28

For those who choose to provide proof of vaccination to access non-essential businesses and events until October 26, anyone aged 12 and older must show proof of one dose taken at least 2 weeks earlier.

- Masking is mandatory in all indoor public spaces and on public transit for anyone aged 5 and older.

- All licensed establishments, including restaurants, bars and other licensed establishments, must implement the Restriction Exemption Program to resume regular operations. To access, people are required to show proof of paid or negative COVID-19 test taken within 72 hours or a medical exemption. For establishments that do not implement the Restriction Exemption Program, not permitted, outdoor dining will be permitted for 1 household with up to 6 people per table or 2 close contacts for those living alone. Masking must be worn at all times. A paid COVID-19 test must be taken by 11pm.

- As of October 19, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including banquet facilities, theatres, casinos, movie theatres, concert venues, museums, and indoor recreational and ticketed sporting events.

- As of October 18, proof of full vaccination or a private paid negative COVID-19 test taken within 72 hours is required at point of entry for people aged 12 and older to access event and entertainment venues, including conference centres, meeting rooms and banquet facilities.

- There are no limits on gatherings at private residences.

All regions in Manitoba are in the orange (resilient) response level.

- Masking is mandatory in all indoor public spaces and on public transit for anyone aged 5 and older.

- All licensed establishments, including restaurants, bars and other licensed establishments, must implement the Restriction Exemption Program to resume regular operations. To access, people are required to show proof of paid or negative COVID-19 test taken within 72 hours or a medical exemption. For establishments that do not implement the Restriction Exemption Program, not permitted, outdoor dining will be permitted for 1 household with up to 6 people per table or 2 close contacts for those living alone. 2. METHODOLOGICAL NOTES

I. Travel-Related Measures: In conjunction with provincial and territorial partners, Destination Canada has sourced information directly from provincial and territorial government websites; additional insights are provided by provincial and territorial partners where relevant or where information from official sources is incomplete. The intention for this section is to provide the latest available information as of the date of the report. Given the evolving nature of these measures and phased opening strategies, readers are encouraged to seek information from official government sources for the most current information.
