COVID-19 Impact and Recovery Report: Travel-Related Measures
Updated: November 3, 2021

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

1. Travel-Related Measures: A summary of the travel and tourism-related measures in place in each province and territory. Current travel restrictions and self-isolation requirements are also available on Destination Canada's website: https://caen-keepeekroving.canada.travel/covid-19-traveller-guidance

2. Methodological Notes: An explanation of the methodologies in the different sections and relevant sources.

1. TRAVEL-RELATED MEASURES

As of October 30, travellers aged 12 years and older are required to show their Canadian COVID-19 proof of vaccination to depart from Canadian airports, on VIA Rail and Rocky Mountaineer trains, and on non-essential passenger vessels (e.g. cruise ships) on voyages of 24 hours or more departing from ports in Canada. To qualify as fully vaccinated, travellers must have received the full series of an accepted COVID-19 vaccine (or a full series of a combination of accepted vaccines), with the last dose at least 14 full days prior to the date of travel. For those in the process of being vaccinated, there will be a short transition period where they will be able to travel if they can show a valid COVID-19 molecular test within 72 hours of travel. As of November 30, all travellers aged 12 years and older must be fully vaccinated, with very limited exceptions. Please consult the Government of Canada website for the latest federal travel requirements: https://travel.gc.ca/travel-covid.

In addition to federal government travel requirements, individual provinces and territories have implemented measures on travel between provinces and territories. The table below outlines self-isolation requirements for domestic travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information, collected by provincial and territorial tourism marketing authorities and relevant tourism departments, is current as of November 3, 2021.

Travel Measures

<table>
<thead>
<tr>
<th>Traveller self-isolation required?</th>
<th>Travel restrictions?</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>British Columbia</strong> 1, 2</td>
<td>- No self-isolation or proof of vaccination for domestic travellers entering British Columbia.</td>
</tr>
<tr>
<td></td>
<td>- No self-isolation upon entering British Columbia for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering British Columbia, but must follow strict public health measures that include avoiding crowded settings.</td>
</tr>
</tbody>
</table>

| Alberta | - No self-isolation or proof of vaccination for domestic travellers entering Alberta. |
| | - No self-isolation upon entering Alberta for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Alberta, but must follow strict public health measures that include avoiding crowded settings. |

| Saskatchewan | - No self-isolation or proof of vaccination for domestic travellers entering Saskatchewan. |
| | - No self-isolation upon entering Saskatchewan for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Saskatchewan, but must follow strict public health measures that include avoiding crowded settings. |

| Manitoba 1, 4 | - No self-isolation upon entering Manitoba for fully vaccinated domestic travellers. Partially vaccinated or unvaccinated domestic travellers must complete a 14-day self-isolation. Unvaccinated children under 12 years of age of fully-vaccinated domestic travellers are exempt from self-isolation. |
| | - No self-isolation upon entering Manitoba for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Manitoba, but must follow strict public health measures that include avoiding crowded settings. |

| Ontario | - No self-isolation or proof of vaccination required for domestic travellers entering Ontario. |
| | - No self-isolation upon entering Ontario for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Ontario, but must follow strict public health measures that include avoiding crowded settings. |

- No travel restrictions for domestic travellers entering British Columbia. Some Indigenous communities in BC are not welcoming visitors at this time. Indigenous Tourism BC has a list of Indigenous experiences in the province that are currently open and welcoming visitors.

- Fully vaccinated foreign nationals can travel to British Columbia provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

- Fully vaccinated foreign nationals can travel to Alberta provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

- Fully vaccinated foreign nationals can travel to Saskatchewan provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

- Fully vaccinated foreign nationals can travel to Manitoba provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

- Fully vaccinated foreign nationals can travel to Ontario provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

No travel restrictions for domestic travellers entering British Columbia. Some Indigenous communities in BC are not welcoming visitors at this time. Indigenous Tourism BC has a list of Indigenous experiences in the province that are currently open and welcoming visitors.

No travel restrictions for domestic travellers entering Alberta.

No travel restrictions for domestic travellers entering Saskatchewan.

No travel restrictions for fully vaccinated domestic travellers entering Manitoba. Partially vaccinated or unvaccinated domestic travellers are required to self-isolate.

Travel to and from northern Manitoba is restricted, with exceptions for those who are fully vaccinated, those who are travelling directly to cottages, provincial parks, campgrounds or hunting and fishing lodges, and other specific exceptions.

Fully vaccinated foreign nationals can travel to Manitoba provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

No travel restrictions for domestic travellers entering Ontario.

Fully vaccinated foreign nationals can travel to Ontario provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

No travel restrictions for domestic travellers entering Ontario.

**Traveller self-isolation required?**

**Quebec**

- No self-isolation or proof of vaccination required for domestic travellers entering Quebec.
- No self-isolation upon entering Quebec for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Quebec, but must follow strict public health measures that include avoiding crowded settings.

**New Brunswick**

- No self-isolation required for fully vaccinated domestic travellers entering New Brunswick. Unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.
- No self-isolation upon entering New Brunswick for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering New Brunswick, but must follow strict public health measures that include avoiding crowded settings.

**Nova Scotia**

- Domestic travellers entering Nova Scotia from all provinces and territories must follow self-isolation protocol dependent on vaccination status: 2 doses at least 14 days before arrival = no self-isolation; 1 or 0 doses = 7-day self-isolation and 2 negative tests. Children under 12 travelling domestically are required to follow same isolation protocol as the least vaccinated adult they are travelling with.
- Unvaccinated or partially vaccinated PEI residents and Canadian visitors entering Prince Edward Island from any province or territory are required to complete a declaration form and self-isolate for 8 days, with testing at point of entry and on day 8.
- No self-isolation upon entering Nova Scotia for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Nova Scotia, but must follow strict public health measures that include avoiding crowded settings.

**Prince Edward Island**

- All travellers over the age of 8 entering Prince Edward Island, regardless of vaccination status, will be tested at point of entry.
- Fully vaccinated people aged 12 and older entering Prince Edward Island from any province or territory who have a PEI Pass do not have to self-isolate but are asked to get tested at least once between day 4 and day 8 after arrival. All school-age children under 12 years of age are asked to get tested twice, on day 4 and on day 8.
- Unvaccinated or partially vaccinated PEI residents and Canadian visitors entering Prince Edward Island from any province or territory are required to complete a declaration form and self-isolate for 8 days, with testing at point of entry and on day 8.

**Newfoundland and Labrador**

- Fully vaccinated foreign nationals can travel to Newfoundland and Labrador provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.
- Fully vaccinated foreign nationals can travel to Newfoundland and Labrador provided that they meet specific entry and testing requirements and have PEI Pass. Entry will be prohibited for non-essential travellers.
- Fully vaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Newfoundland and Labrador, but must follow strict public health measures that include avoiding crowded settings.
- No self-isolation upon entering Newfoundland and Labrador for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Newfoundland and Labrador, but must follow strict public health measures that include avoiding crowded settings.

**Yukon**

- Fully vaccinated foreign nationals can travel to Yukon provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.
### Traveler self-isolation required?

<table>
<thead>
<tr>
<th>Northwest Territories 12, 13, 14</th>
</tr>
</thead>
<tbody>
<tr>
<td>No self-isolation required for fully vaccinated travellers admitted into the Northwest Territories (residents, non-resident essential workers or travellers with an exemption). Fully vaccinated travellers going to communities other than Yellowknife, Inuvik, Fort Smith, Hay River, Fort Simpson and Norman Wells require a COVID-19 test on days 1 and 14. Mandatory 8-day self-isolation for partially vaccinated admitted travellers with a COVID-19 test on day 8. Mandatory 10-day self-isolation for unvaccinated admitted travellers, including children under 12 and household members who did not travel, with a COVID-19 test on day 10. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website.</td>
</tr>
<tr>
<td>No self-isolation upon entering the Northwest Territories for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements and who are admitted to enter the Northwest Territories. Unvaccinated children (and those travelling with them) will not be able to forgo the mandatory 10-day isolation requirement. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website.</td>
</tr>
<tr>
<td>No isolation required for travellers admitted to enter Nunavut who are fully vaccinated and who have received an exemption after completing the Traveller’s Declaration Form. Mandatory 14-day isolation for all other admitted travellers prior to boarding a plane to Nunavut. Mandatory isolation must occur in government-designated sites in Edmonton, Winnipeg, Ottawa or Yellowknife. Unvaccinated children travelling with fully vaccinated parents or guardians can self-isolate for 14 days in Nunavut rather than at a government-designated site outside of the territory.</td>
</tr>
<tr>
<td>No self-isolation upon entering Nunavut for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements and are admitted to enter Nunavut. Unvaccinated children will not be able to forgo the mandatory 14-day self-isolation requirement.</td>
</tr>
</tbody>
</table>

### Travel restrictions?

<table>
<thead>
<tr>
<th>Northwest Territories 12, 13, 14</th>
</tr>
</thead>
<tbody>
<tr>
<td>Travel to and from Behchoko is restricted to fully vaccinated travellers who are not identified as contacts of, or share accommodations with, a person with COVID-19, with some exceptions. Leisure travel into the Northwest Territories by non-residents is currently not permitted. Exemptions are considered for compassionate reasons, family reunification, exceptional circumstances, travel from Nunavut, and remote tourism with tourism operators with plans approved by the Chief Public Health Officer.</td>
</tr>
<tr>
<td>Fully vaccinated foreign nationals may be authorized to travel to the Northwest Territories only to participate in remote tourism with an approved remote tourism operator provided that they meet specific entry and testing requirements. Fully vaccinated foreign nationals must have an exemption from the Northwest Territories Chief Public Health Officer; exception requests will be assessed on a case-by-case basis. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</td>
</tr>
<tr>
<td>As of October 29, Nunavut has suspended the Common Travel Area with Nunavut. Entry into Nunavut requires authorization from the territory’s Chief Public Health Officer. Authorization may be granted for: residents, critical workers, and non-residents entering for family reunification, exercising Aboriginal or treaty rights, or engaging in wilderness tourism with an operator that has an approved Wilderness Tourism Operator COVID-19 Operations Plan. Fully vaccinated foreign nationals may be authorized to travel to Nunavut provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</td>
</tr>
</tbody>

**Please source this document as “COVID-19 Impact and Recovery Report: Travel Related Measures, Updated: November 3, 2021, Destination Canada”**
Most provinces and territories have implemented a framework to guide re-opening strategies catering to their individual circumstances. Since each province and territory is starting from a different baseline to implement the reopening of their local economy, the phases and stages are not congruent across jurisdictions. The table below outlines the current status of restrictions on tourism-related sectors as of November 3, 2021. Unless noted, persons must gather and business must operate with sufficient social distancing measures in place. Many destinations require non-medical masks to be worn and all visitors should plan on having masks ready if needed.

### Tourism Related Measures

#### Current Phase/Stage

| Province-wide: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. See the full list here. |
|---|---|---|
| BC is in Step 3 of its 4-step Pathway Plan: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. See the full list here. |---|
| Northern Health region (except Terrace, Kitimat, Haida Gwaii, Prince Rupert, Siksika, Telegraph Creek, Snow Country and Nisga’a): | As of October 15, alcohol cannot be served between 10pm and 9am. Bars and nightclubs that do not offer full meal service are closed. Fast food restaurants and unlicensed cafés without table service may offer takeout only or require people aged 12 and older to provide proof of full vaccination. |---|
| Interior Health region: | Gatherings at at indoor organized gatherings must have maximum 1 household plus maximum 25 people. |---|
| Rest of province: | All indoor organized gatherings must have maximum 50 people or 50% capacity, whichever is greater. |---|

#### Hotels & Accommodation

| Province-wide: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access all accommodations, cafes, pubs, breweries and nightclubs. |---|
| As of October 25, all visitors should plan on having masks ready if needed. |---|
| As of October 25, indoor and outdoor organized gatherings can operate at full capacity. |---|

#### Restaurants & Dining

| Province-wide: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access all restaurants, cafes, pubs, breweries and nightclubs. |---|
| As of October 25, all visitors should plan on having masks ready if needed. |---|
| As of October 25, indoor and outdoor organized gatherings can operate at full capacity. |---|

#### Activities & Attractions

| Province-wide: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access all accommodations, cafes, pubs, breweries and nightclubs. |---|
| As of October 25, all visitors should plan on having masks ready if needed. |---|
| As of October 25, indoor and outdoor organized gatherings can operate at full capacity. |---|

#### Large Gatherings/Conferences

| Province-wide: | As of October 24, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. See the full list here. |---|
| As of October 25, indoor and outdoor organized gatherings can operate at full capacity. |---|
| As of October 25, all visitors should plan on having masks ready if needed. |---|

</thead>
</table>
| As of October 26, people aged 12 and older are required to show proof of full vaccination with the second dose received at least 2 weeks earlier or a medical exemption for negative COVID-19 test taken within 72 hours or a medical exemption to access non-essential businesses and events that implement the Restrictions Exemption Program. Businesses that do not implement this program have additional restrictions. Masks are mandatory in all indoor public spaces and on public transit. 

All licensed establishments, including restaurants, bars and nightclubs, that implement the Restrictions Exemption Program can resume regular operations. To access, people are required to show proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours or a medical exemption. For establishments that do not implement the Restrictions Exemption Program, indoor dining is not permitted. Outdoor dining will be permitted for 1 household with up to 6 people per table or 2 close contacts for those living alone. Liquor sales must end at 10pm and consumption by 11pm. Retail businesses are exempt from the Restrictions Exemption Program. However, capacity is limited to 33% maximum capacity and people must be with household members only or 2 close contacts if they live alone. All entertainment businesses and entities, including casinos, cinemas, theatres, museums and galleries, that implement the Restrictions Exemption Program can resume regular operations. To access, people are required to show proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours or a medical exemption. Businesses and entities that do not implement the Restrictions Exemption Program are restricted to 33% maximum capacity and people must be with household members only or 2 close contacts if they live alone. Outdoor and indoor private gatherings can have maximum 20 people with 2 metres physical distance at all times. Outdoor public gatherings: Events and facilities that are fully outdoors (excluding washrooms) have no capacity restrictions but people must maintain 2 metre physical distance between households or 2 close contacts for those living alone. Fully vaccinated people: Indoor social gatherings are limited to 2 households to maximum 10 fully vaccinated people aged 12 and older. There are no restrictions on children under 12. Unvaccinated people: Indoor social gatherings are not permitted for people aged 12 and older who are unvaccinated. | Saskatchewan is in Step 3 of the Re-Opening Roadmap. As of October 18, proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours is required for people aged 12 and older to access some businesses and event venues. See the full list here. Masks are mandatory throughout Saskatchewan in indoor public spaces. 

All regions in Manitoba are in the orange (restrict) response level. Masks are mandatory throughout Manitoba in indoor public spaces and on public transit for anyone aged 5 and older. 

All retail operations can resume regular operations. People aged 12 and older must show proof of vaccination for indoor and outdoor dining at all restaurants, bars and other licensed establishments. Proof of vaccination is required for dine-in at food courts. | As of October 18, proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours is required for people aged 12 and older to access some businesses and event venues, including conference centres, meeting rooms and banquet facilities. There are no limits on gatherings at private residences. | As of October 18, proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours is required for people aged 12 and older to access some businesses and event venues. See the full list here. | As of October 18, proof of full vaccination or a privately-paid-for negative COVID-19 test taken within 72 hours is required for people aged 12 and older to access some businesses and event venues. **Hotels & Accommodation**

- Accommodations are open with controls/safety measures in place. Indoor recreational facilities that are part of the operations can open with restrictions.
- Overnight camping at campgrounds and campgrounds, including in Ontario Parks, can operate.
- Other restrictions may apply.

**Restaurants & Dining**

- Proof of vaccination (full series of doses + 14 days) and proof of government-issued identification showing name and date of birth is required for people aged 12 and older to access indoor dining at restaurants and bars, and other food and drink establishments without dance facilities. It is also required for both indoor and outdoor areas of food and drink establishments with dance facilities, including nightclubs, strip clubs and other similar establishments.
- As of October 25, restaurants, bars, and other food or drink establishments can operate to maximum capacity, 2-metre physical distancing is no longer required.
- Nightclubs can open to 25% capacity or 250 people, whichever is less, and with 2-metre physical distancing in place.
- Other restrictions may apply.

**Activities & Attractions**

- Proof of vaccination (full series of doses + 14 days) and proof of government-issued identification showing name and date of birth is required for people aged 12 and older to access indoor sports events, racing venues, casinos, concerts, cinemas and theatres, as well as select outdoor venues with a usual capacity of 20,000+ people, subject to certain conditions.

- Capacity limits are lifted to allow 100% capacity in concert venues, theatres, cinemas, spectator areas of sports facilities, plus horse racing and car racing tracks. Proof of vaccination is required to access certain areas of these settings.

- Retail business can operate with 2-metre physical distancing in place.

- As of October 25:
  - Amusement parks and waterparks that opt in to require proof of vaccination can operate at maximum capacity subject to certain conditions. Amusement parks and water parks that do not opt in to require proof of vaccination can open if they: 1. limit indoor capacity to the number of visitors who can maintain a physical distance of at least 2 metres and 2. do not exceed 50% capacity. Outdoor capacity limits have been lifted.
  - Drive-in and drive-through venues can operate with restrictions.
  - Casinos, bingo halls and other gaming establishments can operate at full capacity, with other restrictions:
    - Museums, galleries, aquariums, zoos, science centres, landmarks, historic sites, botanical gardens and similar attractions that opt in to require proof of vaccination can operate at maximum capacity subject to certain conditions. Attractions that do not opt in to require proof of vaccination can open if they: 1. limit capacity in the indoor ticketed area to the number of visitors who can maintain a physical distance of at least 2 metres and 2. do not exceed 50% of the allowed capacity.

**Large Gatherings/Conferences**

- Quebec residents aged 13 and older must show their vaccine passport to access meetings, conventions, festivals and other events.

- Private indoor gatherings can have up to 10 people from different households or all occupants of 3 households. Private outdoor gatherings can have up to 20 people from different households or all occupants of 3 households. People who have received two doses of vaccine can gather in private homes without distancing measures or masks.

- Organized activities in indoor public settings can have up to 25 people with physical distancing in place. Organized activities in outdoor public settings can have up to 50 people.

- Auditoriums and stadiums with assigned seats can operate at full capacity. Mealtimes, conventions, shows and exhibitions which require vaccine passports can also operate at full capacity.
### Nova Scotia

As of October 12, Nova Scotia is in Phase 4 of its reopening plan, Moving Forward. The full list of accommodations can resume regular operations. See the full list here.

### New Brunswick

As of October 29, a circuit breaker is in place in Zone 2 (Saint John region) New River Beach and Lepreau, north to the communities of Clarendon and Waterside, east to the community of Head of Millstream, and all communities in Saint John and Kings counties.

As of October 22, a circuit breaker is in place in all of Zone 5 (Campbellton region).

As of October 8, a circuit breaker is in place in Zone 1 (Moncton region) as far north as and including Sainte-Anne-de-Kent and including Havelock in Zone 2, the northern portion of Zone 3 from and including Deenieville and Florenceville-Bristol, but excluding Hayesville and Parker Ridge, and all of Zone 4 (Edmundston region).

Proof of full vaccination along with government-issued ID is required for people aged 12 and older to access indoor and outdoor dining at restaurants and bars, other food and drink establishments and nightclubs. See the full list here.

New Brunswick is in Phase 3 of its 3-phase provincial reopening plan, Path to Green.

### Prince Edward Island

As of October 29, a provincial circuit breaker is in effect. People aged 12 and older must show proof of full vaccination (2 doses + 14 days) along with photo ID to access certain businesses and settings. See the full list here.

Proof of full vaccination (2 doses + 14 days) is required for people aged 12 and older to access dine-in service at restaurants, cafés, bars and other licensed establishments, both indoors and outdoors. Maximum seating capacity is 100 people inside and 200 people outside. See the full list here.

Proof of vaccination is not required for take-out and drive-through. See the full list here.

Proof of full vaccination is required for retail stores, museums and galleries which must operate with sufficient distancing measures in place. See the full list here.

Physical distancing and gathering limits are lifted for formal gatherings hosted by a recognized business. Proof of full vaccination is required for people aged 12 and older to participate in most indoor and outdoor public events and activities that bring groups of people together, including festivals, special events, concerts and conferences hosted by a recognized business organization. See the full list here.

Proof of vaccination is not required for business meetings/activities where the general public is not present, or for outdoor events held in public spaces with no specific entry point, such as street festivals.

Informal social gathering limits remain in place: up to 25 people indoors and 50 people outdoors.

- **Prince Edward Island**: Proof of full vaccination is required for business meetings/activities where the general public is not present, or for outdoor events held in public spaces with no specific entry point, such as street festivals.

### Large Gatherings/Conferences

- **Nova Scotia**: Moving Forward: As of October 12, indoor private gatherings are limited to a household plus 20 consistent contacts. Outside private gatherings have no capacity limits as long as physical distancing is in place.

- **New Brunswick**: No private indoor or outdoor gatherings are permitted; people must limit contacts to those in their household.

- **Prince Edward Island**: Proof of full vaccination (2 doses + 14 days) is required for people aged 12 and older to attend indoor organized gatherings, such as banquet halls and conference/convention centres. See the full list here.
As of October 22, proof of full vaccination via the NLVaxPass and valid ID will be required for people aged 12 and older to access all non-essential establishments. All restaurants and other licenced establishments can resume regular operations. Until November 30, people who are not fully vaccinated are advised to avoid restaurants and other licenced establishments for 10 days after travel outside of the Yukon. As of November 30, proof of full vaccination will be required for people aged 12 and older to access restaurants and other licenced establishments.

Rest of province: Retail stores may operate with distancing measures in place. Cinemas, performance spaces and arenas can open to maximum 500 people indoors and outside with physical distancing.

Large gatherings/conferences

As of October 22, proof of full vaccination via the NLVaxPass and valid ID will be required for people aged 12 and older to attend any gathering hosted at a recognized business or organization, or other venue used to host gatherings. People aged 19 and older must present one photo ID or two pieces of non-photo ID (both must include their name and at least one must have their date of birth).

Newfoundland and Labrador: As of October 23, informal gatherings are limited to a household bubble plus 10 close and consistent contacts (Tight 10).

Large outdoor and indoor venues with a capacity of 500 people or more, including theatres and performing arts, entertainment and sports venues, can have separated cohorts with physical distancing.

Northwest Territories

As of October 22, proof of full vaccination via the NLVaxPass and valid ID will be required for people aged 12 and older to attend any gathering hosted at a recognized business or organization, or other venue used to host gatherings. People aged 19 and older must present one photo ID or two pieces of non-photo ID (both must include their name and at least one must have their date of birth).

See a list of non-essential venues.

Northwest Territories is in the Indoor Gatherings phase of its reopening plan, Emerging Wisely and Safely Step by Step Together. As of October 22, people can request a volumetric proof of Vaccine Credential. Most businesses and enterprises can resume regular operations. Most parks and facilities are open. It is recommended to check with the facility, tourism operator or park directly to confirm its status.

As of October 29 in Hay River: Non-essential businesses can have maximum 100 people indoors and maximum 25 people outdoors with physical distancing and exposure control plans in place. All previous exemptions for businesses and organizations will no longer apply.

As of October 29 in K'atlodeeze First Nations Reserve Lands and October 27 in Behchoko: Essential businesses and facilities may remain open with maximum 10 people permitted indoors. Non-essential businesses are closed. As of October 22 in rest of NWT: Business and enterprises can have up to 25 people indoors and up to 50 people outdoors, with 2-metre physical distancing in place. The Chief Public Health Officer must approve numbers higher than this, with one condition that people over the age of 12 show proof of full vaccination to access these places.

Most parks and outdoor spaces are open. It is recommended to check with the facility or tourism operator directly to confirm its status.

As of October 29 in Hay River: All indoor private gatherings are prohibited with people outside a household. Outdoor public gatherings can have maximum 25 people with physical distancing.

As of October 29 on K’atlodeeze First Nations Reserve Lands and October 27 in Behchoko: All indoor and outdoor gatherings are prohibited with people outside a household.

As of October 22 in rest of NWT: Indoor private gatherings may have up to 25 people from outside a household if all participants are fully vaccinated people aged 12 and older or children under the age of 12. If any unvaccinated or partially vaccinated people are present, indoor private gatherings can have up to 10 people from outside a household.

Public gatherings can have up to 25 people indoors and up to 50 people outdoors, with 2-metre physical distancing in place. The Chief Public Health Officer must approve large gatherings larger than this, with one condition that all participants over the age of 12 show proof of full vaccination to participate.
Nunavut is guided by Nunavut’s Path: Living with COVID-19, an approach that supports the territory in its long-term response to COVID-19. Masks are mandatory across Nunavut.

I. Travel-Related Measures: In conjunction with provincial and territorial partners, Destination Canada has sourced information directly from provincial and territorial government websites; additional insights are provided by provincial and territorial partners where relevant or where information from official sources is incomplete. The intention for this section is to provide the latest available information as of the date of the report. Given the evolving nature of these measures and phased opening strategies, readers are encouraged to seek information from official government sources for the most current information.
