

COVID-19 Impact and Recovery Report: Travel-Related Measures

Updated: December 8, 2021

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

- Travel-Related Measures:** A summary of the travel and tourism-related measures in place in each province and territory. Current travel restrictions and self-isolation requirements are also available on Destination Canada's website: <https://caen-keepexploring.canada.travel/covid-19-traveller-guidance>
- Methodological Notes:** An explanation of the methodologies in the different sections and relevant sources.

1. TRAVEL-RELATED MEASURES

As of December 1, foreign nationals who have been in any of the [countries listed here](#) within the previous 14 days will not be permitted entry into Canada. In addition, in the coming days, all fully vaccinated travellers arriving by air from departure points other than the United States, including Canadian citizens and permanent residents, will be subject to arrival testing. Fully vaccinated travellers will be required to quarantine while they await the results of their arrival test.

As of November 30, travellers aged 12 years and older, with very limited exceptions, are required to show their [Canadian COVID-19 proof of vaccination](#) to depart from Canadian airports, on VIA Rail and Rocky Mountaineer trains, and on non-essential passenger vessels (e.g. cruise ships) on voyages of 24 hours or more departing from ports in Canada. To qualify as fully vaccinated, travellers must have received the full series of an accepted COVID-19 vaccine (or a full series of a combination of accepted vaccines), with the last dose at least 14 full days prior to the date of travel. Please consult the Government of Canada website for the latest federal travel requirements: <https://travel.gc.ca/travel-covid>.

In addition to federal government travel requirements, individual provinces and territories have implemented measures on travel between provinces and territories. The table below outlines self-isolation requirements for domestic and foreign travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information, collected by provincial and territorial tourism marketing authorities and relevant tourism departments, is current as of December 8, 2021.

Travel Measures

	Traveller self-isolation required?	Travel restrictions?
British Columbia 1, 2, 3	<p>No self-isolation for domestic travellers entering British Columbia.</p> <p>No self-isolation upon entering British Columbia for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering British Columbia, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>As of December 6, an order restricting non-essential travel is in place along select areas of highways 3 and 99 due to severe damage from flooding and landslides. Non-essential vehicles are also limited to purchasing 30 litres of fuel per trip to the gas station in the Lower Mainland (Vancouver to Hope), Sea to Sky (Squamish to Pemberton), Sunshine Coast, Gulf Islands and Vancouver Island. See the complete travel and fuel restrictions here.</p> <p>No travel restrictions for domestic travellers entering British Columbia. Some Indigenous communities in BC are not welcoming visitors at this time. Indigenous Tourism BC has a list of Indigenous experiences in the province that are currently open and welcoming visitors.</p> <p>Fully vaccinated foreign nationals can travel to British Columbia provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Alberta	<p>No self-isolation for domestic travellers entering Alberta.</p> <p>No self-isolation upon entering Alberta for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Alberta, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for domestic travellers entering Alberta.</p> <p>Fully vaccinated foreign nationals can travel to Alberta provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Saskatchewan	<p>No self-isolation for domestic travellers entering Saskatchewan.</p> <p>No self-isolation upon entering Saskatchewan for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Saskatchewan, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for domestic travellers entering Saskatchewan.</p> <p>Fully vaccinated foreign nationals can travel to Saskatchewan provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Manitoba 4, 5	<p>No self-isolation upon entering Manitoba for fully vaccinated domestic travellers. Partially vaccinated or unvaccinated domestic travellers must complete a 14-day self-isolation. Unvaccinated children under 12 years of age of fully vaccinated domestic travellers are exempt from self-isolation.</p> <p>No self-isolation upon entering Manitoba for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Manitoba, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for fully vaccinated domestic travellers entering Manitoba. Partially vaccinated or unvaccinated domestic travellers are required to self-isolate.</p> <p>Travel to and from northern Manitoba is restricted, with exceptions for those who are fully vaccinated, those who are travelling directly to cottages, provincial parks, campgrounds or hunting and fishing lodges, and other specific exceptions.</p> <p>Fully vaccinated foreign nationals can travel to Manitoba provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>

Traveller self-isolation required?

Travel restrictions?

	Traveller self-isolation required?	Travel restrictions?
Ontario	<p>No self-isolation required for domestic travellers entering Ontario.</p> <p>No self-isolation upon entering Ontario for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Ontario, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for domestic travellers entering Ontario.</p> <p>Fully vaccinated foreign nationals can travel to Ontario provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Quebec	<p>As of December 3, all people entering Nunavik who have travelled outside Canada are required to self-isolate for 10 days. People arriving from countries where Canada has imposed travel restrictions will not be allowed to observe their self-isolation in Nunavik.</p> <p>No self-isolation required for all other domestic travellers entering Quebec.</p> <p>No self-isolation upon entering Quebec for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Quebec, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for domestic travellers entering Quebec.</p> <p>Fully vaccinated foreign nationals can travel to Quebec provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
New Brunswick ⁶	<p>No self-isolation required for fully vaccinated domestic travellers entering New Brunswick. Unvaccinated or partially vaccinated domestic travellers, including New Brunswick residents, are required to self-isolate for 14 days, or until receiving a negative result from testing on day 10.</p> <p>No self-isolation upon entering New Brunswick for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. As of December 4, foreign nationals are required to get tested on days 5 and 10. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering New Brunswick, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>All Canadian residents entering New Brunswick, including New Brunswick residents re-entering the province, must pre-register or have a multi-use pass, with restrictions for those who are not fully vaccinated.</p> <p>Fully vaccinated foreign nationals can travel to New Brunswick provided that they meet specific entry and testing requirements and have pre-registered. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Nova Scotia ^{7, 8}	<p>Domestic travellers entering Nova Scotia from all provinces and territories must follow self-isolation protocol dependent on vaccination status: 2 doses at least 14 days before arrival = no self-isolation; 1 or 0 doses = 7-day self-isolation and 2 negative tests. Children under 12 travelling domestically are required to follow same isolation protocol as the least vaccinated adult they are travelling with.</p> <p>No self-isolation upon entering Nova Scotia for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Nova Scotia, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>No travel restrictions for domestic travellers entering Nova Scotia from all provinces and territories, but they must complete the Safe Check-in Form and refer to the self-isolation protocol dependent on vaccine status.</p> <p>Fully vaccinated foreign nationals can travel to Nova Scotia provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Prince Edward Island ⁹	<p>All travellers over the age of 8 entering Prince Edward Island, regardless of vaccination status, will be tested at point of entry. As of December 3, all travellers arriving from an international destination, including the US, are required to be tested again on day 4 after arrival.</p> <p>Fully vaccinated people aged 12 and older entering Prince Edward Island from any province or territory and who have a PEI Pass do not have to self-isolate but are asked to get tested at least once between day 4 and day 8 after arrival. All school-age children under 12 years of age are asked to get tested twice, on day 4 and on day 8.</p> <p>Unvaccinated or partially vaccinated PEI residents and Canadian visitors entering Prince Edward Island from any province or territory are required to complete a declaration form and self-isolate for 8 days, with testing at point of entry and on day 8.</p> <p>No self-isolation upon entering Prince Edward Island for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Prince Edward Island, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>Residents of Prince Edward Island are advised to avoid non-essential out-of-province travel.</p> <p>All Canadian residents can travel to Prince Edward Island with restrictions for those who do not have a PEI Pass. A PEI Pass will only be issued to individuals who have received their second dose of an approved vaccine at least 14 days prior.</p> <p>Fully vaccinated foreign nationals who have a PEI Pass can travel to Prince Edward Island provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Newfoundland and Labrador ¹⁰	<p>Fully vaccinated Canadian residents have no testing or self-isolation requirements. Unvaccinated children under the age of 12 travelling with fully vaccinated adults are not required to self-isolate. As of November 30, the province's definition of fully vaccinated has been updated to include specific allowance for people with vaccines not authorized by Health Canada or the World Health Organization (WHO) but these vaccines must be followed by one dose of a COVID-19 mRNA vaccine authorized by Health Canada at least 14 days before arriving in the province.</p> <p>Partially vaccinated or unvaccinated travellers must self-isolate for 14 days, but can shorten this period by producing a negative test on day 7 or later after arrival. Mixed groups of vaccinated, partially vaccinated and/or unvaccinated adult travellers must follow the rules for unvaccinated travellers.</p> <p>No self-isolation upon entering Newfoundland and Labrador for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Newfoundland and Labrador, but must follow strict public health measures that include avoiding crowded settings.</p>	<p>All Canadians are permitted to enter Newfoundland and Labrador. All travellers can complete the Travel Form up to 30 days prior to their travel date.</p> <p>Fully vaccinated foreign nationals who have submitted the Travel Form up to 30 days prior to their travel date can travel to Newfoundland and Labrador provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p>
Yukon ¹¹	<p>No self-isolation required for domestic travellers entering Yukon.</p> <p>No self-isolation upon entering Yukon for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements. Unvaccinated children under 12 years of age of fully vaccinated travellers are not required to quarantine upon entering Yukon, but must follow strict public health measures that include avoiding crowded settings.</p> <p>The Government of Canada has specific guidelines for driving to or from Alaska through Canada. Read the State of Alaska's health guidance for travellers during the COVID-19 pandemic.</p>	<p>No travel restrictions for domestic travellers entering Yukon.</p> <p>Fully vaccinated foreign nationals can travel to Yukon provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</p> <p>As of November 13, public health measures must be followed while in the territory. Travellers are asked to follow these guidelines if thinking about travelling to Yukon communities.</p>

Traveller self-isolation required?

Travel restrictions?

Northwest Territories ^{12, 13}

No self-isolation required for fully vaccinated travellers admitted into the Northwest Territories (residents, non-resident essential workers or travellers with an exemption). Fully vaccinated travellers going to communities other than Yellowknife, Inuvik, Fort Smith, Hay River, Fort Simpson and Norman Wells require a COVID-19 test on days 1 and 14. Mandatory 8-day self-isolation for partially vaccinated admitted travellers with a COVID-19 test on day 8. Mandatory 10-day self-isolation for unvaccinated admitted travellers, including children under 12 and household members who did not travel, with a COVID-19 test on day 10. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories [website](#).

No self-isolation upon entering the Northwest Territories for [fully vaccinated](#) foreign nationals provided that they meet specific [entry and testing requirements](#) and who are admitted to enter the Northwest Territories. Unvaccinated children (and those travelling with them) will not be able to forgo the mandatory 10-day isolation requirement. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories [website](#).

Leisure travel into the Northwest Territories by non-residents is currently not permitted. Exemptions are considered for compassionate reasons, family reunification, exceptional circumstances, travel from Nunavut, and remote tourism with tourism operators with plans approved by the Chief Public Health Officer.

[Fully vaccinated](#) foreign nationals may be authorized to travel to the Northwest Territories only to participate in remote tourism with an approved remote tourism operator provided that they meet specific [entry and testing requirements](#). Fully vaccinated foreign nationals must have an exemption from the Northwest Territories Chief Public Health Officer; exemption requests will be assessed on a case-by-case basis. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

Nunavut ^{14, 15, 16}

As of December 1, no isolation required for travellers returning to Nunavut who are fully vaccinated and who have a Nunavut proof of vaccination certificate. Mandatory 14-day isolation for all other admitted travellers prior to boarding a plane to Nunavut except those travelling directly from Churchill, Manitoba.

Mandatory isolation must occur in government-designated sites in Edmonton, Winnipeg, Ottawa or Yellowknife.

Unvaccinated children travelling with fully vaccinated parents or guardians can self-isolate for 14 days in Nunavut rather than at a government-designated site outside of the territory.

No self-isolation upon entering Nunavut for [fully vaccinated](#) foreign nationals provided that they meet specific [entry and testing requirements](#) and are admitted to enter Nunavut. Unvaccinated children will not be able to forgo the mandatory 14-day self-isolation requirement.

As of November 15, Nunavut has reopened the Common Travel Area with Churchill, Manitoba.

Entry into Nunavut requires authorization from the territory's Chief Public Health Officer. Authorization may be granted for: residents, critical workers, those travelling within the Common Travel Area of Churchill, Manitoba, and non-residents entering for family reunification, exercising Aboriginal or treaty rights, or engaging in wilderness tourism with an operator that has an approved Wilderness Tourism Operator COVID-19 Operations Plan.

[Fully vaccinated](#) foreign nationals may be authorized to travel to Nunavut provided that they meet specific [entry and testing requirements](#). Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

Most Parks Canada places are open and welcoming visitors with adjustments to access and services. Please consult the Parks Canada website for an updated list of specific Parks Canada locations with special instructions: <https://www.pc.gc.ca/en/voyage-travel/securite-safety/covid-19-info#locations>

Most provinces and territories have implemented a framework to guide reopening strategies catered to their individual circumstances. Since each province and territory is starting from a different baseline to implement the reopening of their local economy, the phases and stages are not congruent across jurisdictions. The table below outlines the current status of restrictions on tourism-related sectors as of December 8, 2021. Unless noted, persons must gather and business must operate with sufficient social distancing measures in place. Many destinations require non-medical masks to be worn and all visitors should plan on having masks ready if needed.

Tourism Related Measures

	Current Phase/Stage	Hotels & Accommodation	Restaurants & Dining	Activities & Attractions	Large Gatherings/ Conferences
British Columbia 17, 18, 19, 20	BC is in Step 3 of its 4-step Restart Plan .	<p>Northern Health region: People aged 12 and older must be fully vaccinated to attend indoor and outdoor personal gatherings at vacation rentals, which can have maximum 10 people. Outdoor personal gatherings can have maximum 25 people..</p> <p>Eastern Fraser Health region (Abbotsford, Agassiz, Chilliwack, Harrison Hot Springs, Hope and Mission): Indoor personal gatherings at vacation rentals are limited to 5 people plus the occupants unless all attendees aged 12 and older are fully vaccinated. Outdoor personal gatherings at vacation rentals are limited to 10 people plus the occupants unless all attendees aged 12 and older are fully vaccinated.</p> <p>Rest of province: Accommodations are open with control/safety measures in place.</p>	<p>Province-wide: Proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access all restaurants, cafes, pubs, breweries and nightclubs.</p> <p>The requirement to stay seated in restaurants and other licenced establishments is lifted. There are no group limits for indoor and outdoor dining.</p> <p>Northern Health region: Alcohol cannot be served between 10pm and 9am. Bars and nightclubs that do not offer full meal service are closed. Fast food restaurants and unlicensed cafes without table service can either offer takeout only or require people aged 12 and older to provide proof of full vaccination.</p>	<p>Province-wide: Proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. See the full list here.</p> <p>Vancouver Coastal Health region, Island Health region, Western Fraser Health region and Interior Health region: Concerts, movie theatres, performance spaces and sports events can operate at full capacity. Casinos are open at reduced capacity.</p> <p>Northern Health region: Proof of full vaccination for people aged 12 and older is required to attend all organized events, which can have maximum 50% capacity. Masks are mandatory indoors. Outdoor organized events can have maximum 50% capacity. All organized events must have a safety plan in place.</p> <p>Eastern Fraser Health region (Abbotsford, Agassiz, Chilliwack, Harrison Hot Springs, Hope and Mission): Indoor organized gatherings (e.g. movie theatres, sports arenas, event spaces, casinos) can have maximum 50 people or 50% capacity, whichever is greater. Outdoor venues can have 5,000 people or 50% capacity, whichever is greater.</p>	<p>Province-wide: Proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. Restaurants, bars and lounges can have up to 25 people indoors and up to 50 people outdoors, with 2-metre physical distancing in place. The Chief Public Health Officer must approve numbers higher than this, with one condition that people over the age of 12 show proof of full vaccination to access these places.	<p>Businesses and enterprises can have up to 25 people indoors and up to 50 people outdoors, with 2-metre physical distancing in place. The Chief Public Health Officer must approve numbers higher than this, with one condition that people over the age of 12 show proof of full vaccination to access to these places.</p> <p>Most parks and outdoor spaces are open. It is recommended to check with the facility or tourism operator directly to confirm its status.</p>	<p>Indoor private gatherings may have up to 25 people from outside a household if all participants are fully vaccinated people aged 12 and older or children under the age of 12. If any unvaccinated or partially vaccinated people are present, indoor private gatherings can have up to 5 people from outside a household.</p> <p>Public gatherings can have up to 25 people indoors and up to 50 people outdoors, with 2-metre physical distancing in place. The Chief Public Health Officer must approve public gatherings larger than this, with one condition that all participants over the age of 12 show proof of full vaccination to participate.</p>
Nunavut 46, 47, 48	<p>Nunavut is guided by Nunavut's Path: Living with COVID-19, an approach that supports the territory in its long-term response to COVID-19.</p> <p>Masks are mandatory across Nunavut.</p>	Accommodations are open with control/safety measures in place.	As of December 3, restaurants and other licenced establishments can have maximum 75% capacity.	Businesses can open with 2-metre physical distancing. Galleries and museums can have maximum 50% capacity or 25 people, whichever is less. Theatres can have maximum 75% capacity or 100 people, whichever is less. Arenas can have maximum 50% capacity or 50 people, whichever is less, plus maximum 50 spectators.	<p>Gatherings in homes are limited to a household plus 15 people; indoor gatherings outside of homes are limited to 15 people.</p> <p>Indoor public gatherings in community halls, conference spaces, and within government and Inuit organization facilities can have maximum 75% capacity or 100 people, whichever is less. Outdoor gatherings are limited to 100 people.</p>

2. METHODOLOGICAL NOTES

I. Travel-Related Measures: In conjunction with provincial and territorial partners, Destination Canada has sourced information directly from provincial and territorial government websites; additional insights are provided by provincial and territorial partners where relevant or where information from official sources is incomplete. The intention for this section is to provide the latest available information as of the date of the report. Given the evolving nature of these measures and phased opening strategies, readers are encouraged to seek information from official government sources for the most current information.
