This document provides a summary of the situation across all provinces and territories.

Note: Due to changes in COVID-19 testing policies in many jurisdictions starting in late December 2021, case counts will under estimate the total burden of disease.

Please note: An increase in search and bookings does not imply that residents are non-compliant with any current health restrictions in place, rather that there is an increased interest in travel. Actual travel could take place in the near future or at a later date.

1 Government of Canada Health Infobase, week ending January 2, 2022.

2 For additional information on methodology and a description of the recovery signals, please see Methodological Notes.
