COVID-19 Impact and Recovery Report: Travel-Related Measures
Updated: February 17, 2022

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

1. Travel-Related Measures: A summary of the travel and tourism-related measures in place in each province and territory. Current travel restrictions and self-isolation requirements are also available on Destination Canada’s website: https://caen-keeplexploring.canada.travel/covid-19-traveller-guidance

2. Methodological Notes: An explanation of the methodologies in the different sections and relevant sources.

1. TRAVEL-RELATED MEASURES

Please consult the Government of Canada website for the latest federal travel requirements: https://travel.gc.ca/travel-covid. Below is a summary of recent updates to federal travel requirements and advice:

- Until February 28: A molecular test taken 72 hours prior to a scheduled flight or planned entry (via land or sea) is required for all travellers entering Canada, regardless of the length of trip. In addition, all fully vaccinated travellers arriving by air, including Canadian citizens and permanent residents, may be subject to arrival testing. Fully vaccinated travellers will be required to quarantine while they await the results of their arrival test if they have been outside of Canada or the US in the last 14 days.

- As of February 28: A rapid antigen test taken 24 hours prior to a scheduled flight or a molecular test taken 72 hours prior to a scheduled flight or planned entry (via land or sea) is required for all travellers entering Canada, regardless of the length of trip. Fully vaccinated travellers may be randomly selected for testing upon arrival, but will no longer be required to quarantine while awaiting their test result.

- Until February 28: The Public Health Agency of Canada is advising travellers, regardless of their vaccination status, to avoid non-essential travel internationally.

- As of February 28: The Public Health Agency of Canada is lifting its advisory to avoid non-essential travel internationally.

- Travellers aged 12 years and older, with very limited exceptions, are required to show their Canadian COVID-19 proof of vaccination to depart from Canadian airports, on VIA Rail and Rocky Mountaineer trains, and on non-essential passenger vessels (e.g. cruise ships) on voyages of 24 hours or more departing from ports in Canada.

To qualify as fully vaccinated, travellers must have received the full series of an accepted COVID-19 vaccine (or a full series of a combination of accepted vaccines), with the last dose at least 14 full days prior to the date of travel.

In addition to federal government travel requirements, individual provinces and territories have implemented measures on travel between provinces and territories. The table below outlines self-isolation requirements for domestic and foreign travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information, collected by provincial and territorial tourism marketing authorities and relevant tourism departments, is current as of February 17, 2022.

Travel Measures

<table>
<thead>
<tr>
<th>Traveller self-isolation required?</th>
<th>Travel restrictions?</th>
</tr>
</thead>
</table>

### British Columbia

- **No self-isolation for domestic travellers entering British Columbia.**
- **No self-isolation upon entering British Columbia for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.**
- **Until February 28:** Unvaccinated children under 12 years of age of fully vaccinated foreign national travellers are not required to quarantine upon entering British Columbia, but must follow strict public health measures that include avoiding crowded settings.
- **As of February 28:** Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.
- **No travel restrictions for domestic travellers entering British Columbia.** Some Indigenous communities in BC are not welcoming visitors at this time. Indigenous Tourism BC has a list of Indigenous experiences in the province that are currently open and welcoming visitors.
- **Fully vaccinated foreign nationals can travel to British Columbia provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.**

### Alberta

- **No self-isolation for domestic travellers entering Alberta.**
- **No self-isolation upon entering Alberta for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.**
- **Until February 28:** Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Alberta, but must follow strict public health measures that include avoiding crowded settings.
- **As of February 28:** Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.
- **No travel restrictions for domestic travellers entering Alberta.** Fully vaccinated foreign nationals can travel to Alberta provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.
Traveler self-isolation required?

No self-isolation for domestic travellers entering Saskatchewan.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Saskatchewan, but must follow strict public health measures that include avoiding crowded settings.

As of February 15:
No self-isolation for domestic travellers entering Manitoba.

No self-isolation upon entering Manitoba for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Manitoba, but must follow strict public health measures that include avoiding crowded settings.

As of February 28:
Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

As of February 14:
No self-isolation required for all domestic travellers entering New Brunswick.

No self-isolation required upon entering New Brunswick for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.

No travel restrictions for domestic travellers entering New Brunswick.

No travel restrictions for domestic travellers entering Nova Scotia.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Nova Scotia, but must follow strict public health measures that include avoiding crowded settings.

As of February 28:
Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

Travel restrictions?

No travel restrictions for domestic travellers entering Saskatchewan.

Fully vaccinated foreign nationals can travel to Saskatchewan provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of February 15:
No travel restrictions for domestic travellers entering Manitoba.

Travel to and from northern Manitoba is restricted, with exceptions for those who are fully vaccinated, those who are travelling directly to cottages, provincial parks, campgrounds or hunting and fishing lodges, and other specific exceptions.

Fully vaccinated foreign nationals can travel to Manitoba provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

As of February 28:
No travel restrictions for domestic travellers entering Ontario.

No self-isolation required for domestic travellers entering Ontario.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Ontario, but must follow strict public health measures that include avoiding crowded settings.

As of February 28:
Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

As of February 14:
No travel restrictions for domestic travellers entering Nova Scotia.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Nova Scotia, but must follow strict public health measures that include avoiding crowded settings.

As of February 28:
Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

Travel to Nunavik and James Bay may be required to self-isolate.

No self-isolation required for all other domestic travellers entering Quebec.

No self-isolation upon entering Quebec for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.

As of February 28:
Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Quebec, but must follow strict public health measures that include avoiding crowded settings.

As of February 28:
Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

As of February 14:
No self-isolation required for all domestic travellers entering New Brunswick.

No self-isolation required upon entering New Brunswick for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.

No travel restrictions for domestic travellers entering New Brunswick.

No travel restrictions for domestic travellers entering Nova Scotia.
<table>
<thead>
<tr>
<th>Prince Edward Island</th>
<th>Newfoundland and Labrador</th>
<th>Yukon</th>
</tr>
</thead>
</table>
| **As of February 17:**

No self-isolation for fully vaccinated domestic travellers entering Prince Edward Island, and unvaccinated children under 12 years of age travelling with fully vaccinated adults, with rapid testing on entry and on days 2 and 4.

Unvaccinated or partially vaccinated domestic travellers are required to self-isolate for 8 days, with testing.

**Fully vaccinated** foreign nationals can enter Prince Edward Island provided that they meet specific entry and testing requirements.

**Until February 28:**

Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Prince Edward Island, but must follow strict public health measures that include avoiding crowded settings.

**As of February 28:**

Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

---

| **As of February 17:**

All fully vaccinated travellers entering Newfoundland & Labrador must take 1 COVID-19 rapid test a day for 5 days, starting the day of arrival (tests are provided free of charge). They are not required to self-isolate.

The provincial's definition of fully vaccinated includes specific allowances for people with vaccines not authorized by Health Canada or the World Health Organization (WHO) but these vaccines must be followed by one dose of a COVID-19 mRNA vaccine authorized by Health Canada at least 14 days before arriving in the province.

Partially vaccinated or unvaccinated travellers must self-isolate until they receive a negative PCT test on day 7 or later, and are then subject to modified self-isolation for the remainder of the 14-day period. Mixed groups of vaccinated, partially vaccinated and unvaccinated adult travellers must follow the rules for unvaccinated travellers.

**Fully vaccinated** foreign nationals can enter Newfoundland & Labrador provided that they meet specific entry and testing requirements.

Unvaccinated children under 12 years of age of fully vaccinated travellers must follow strict public health measures that include avoiding crowded settings.

**As of February 28:**

No self-isolation required for domestic travellers entering Newfoundland and Labrador.

**Fully vaccinated** foreign nationals can enter Newfoundland & Labrador provided that they meet specific entry and testing requirements.

Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Newfoundland and Labrador. Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

No self-isolation required for domestic travellers entering Yukon.

No self-isolation upon entering Yukon for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements.

The Government of Canada has specific guidelines for driving to or from Alaska through Canada. Read the Guide to safe travel to Alaska during the COVID-19 pandemic.

**Until February 28:**

Unvaccinated children under 12 years of age of fully vaccinated foreign nationals are not required to quarantine upon entering Yukon, but must follow strict public health measures that include avoiding crowded settings.

**As of February 28:**

Additional public health measures limiting activities for unvaccinated children under 12 years of age of fully vaccinated foreign nationals will no longer be required.

---

| **As of February 17:**

All Canadian residents can travel to Prince Edward Island with restrictions for those who do not have a PEI Pass. A PEI Pass will only be issued to individuals who have received their second dose of an approved vaccine at least 14 days prior.

**Fully vaccinated** foreign nationals who have a PEI Pass can travel to Prince Edward Island provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**Until February 28:**

All Canadians are permitted to enter Newfoundland and Labrador. All travellers can complete the Travel Form up to 30 days prior to their travel date.

**Fully vaccinated** foreign nationals who have submitted the Travel Form up to 30 days prior to their travel date can travel to Newfoundland and Labrador provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.

**As of February 28:**

No travel restrictions for domestic travellers entering Newfoundland and Labrador.

**Fully vaccinated** foreign nationals can travel to Newfoundland and Labrador provided that they meet specific entry and testing requirements.

Domestic travellers entering or returning to Yukon are recommended by the Yukon's Chief Medical Officer of Health to self-monitor for symptoms of COVID-19 and self-isolate when sick.

As of January 26, travellers should avoid travel between communities, and from communities to Whitehorse, until further notice. Travellers are asked to follow these guidelines if they must travel to Yukon communities.

**Fully vaccinated** foreign nationals can travel to Yukon provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.
### Traveler self-isolation required?

<table>
<thead>
<tr>
<th>Northwest Territories</th>
<th>Nunavut</th>
</tr>
</thead>
<tbody>
<tr>
<td>No self-isolation required for fully vaccinated travellers admitted into the Northwest Territories (residents, non-resident essential workers or travellers with an exemption). Fully vaccinated travellers going to communities other than Yellowknife, Inuvik, Fort Smith, Hay River, Fort Simpson and Norman Wells require a COVID-19 test on days 1 and 8. Mandatory 10-day self-isolation for partially vaccinated and unvaccinated admitted travellers, with the option to end self-isolation early on Day 8 with a negative COVID-19 test. Partially vaccinated children under 12 years old may be exempt from self-isolation based on when they received their most recent dose. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website. No self-isolation upon entering the Northwest Territories for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements and are admitted to enter the Northwest Territories. Unvaccinated children (and those travelling with them) will not be able to forgo the mandatory 10-day isolation requirement. All travellers entering the Northwest Territories must file a self-isolation plan, regardless of vaccination status. To fill out a self-isolation plan and find further information about NWT travel restrictions, visit the Government of the Northwest Territories website.</td>
<td>No isolation required for travellers to Nunavut who are fully vaccinated and who have a Nunavut proof of vaccination certificate. Mandatory 10-day isolation for all other admitted travellers prior to boarding a plane to Nunavut except those travelling directly from Churchill, Manitoba. Mandatory isolation must occur in government-designated sites in Edmonton, Winnipeg, Ottawa or Yellowknife. Unvaccinated children travelling with fully vaccinated parents or guardians can self-isolate for 10 days in Nunavut rather than at a government-designated site outside of the territory. No self-isolation upon entering Nunavut for fully vaccinated foreign nationals provided that they meet specific entry and testing requirements and are admitted to enter Nunavut. Unvaccinated children will not be able to forgo the mandatory 10-day self-isolation requirement.</td>
</tr>
</tbody>
</table>

### Travel restrictions?

<table>
<thead>
<tr>
<th>Northwest Territories</th>
<th>Nunavut</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leisure travel into the Northwest Territories by non-residents is currently not permitted. Exemptions are considered for compassionate reasons, family reunification, exceptional circumstances, travel from Nunavut, and remote tourism with tourism operators with plans approved by the Chief Public Health Officer. Fully vaccinated foreign nationals may be authorized to travel to the Northwest Territories only to participate in remote tourism with an approved remote tourism operator provided that they meet specific entry and testing requirements. Fully vaccinated foreign nationals must have an exemption from the Northwest Territories Chief Public Health Officer; exemption requests will be assessed on a case-by-case basis. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</td>
<td>As of January 24, travel to Igloolik is restricted to essential traffic only. Non-essential travel to all communities is strongly discouraged. Entry into Nunavut requires authorization from the territory’s Chief Public Health Officer with an exception for travellers who are fully vaccinated and have a Nunavut proof of vaccination certificate. Authorization may be granted for: residents who are not fully vaccinated, critical workers, those travelling within the Common Travel Area of Churchill, Manitoba, and non-residents entering for family reunification, exercising Aboriginal or treaty rights, or engaging in wilderness tourism with an operator that has an approved Wilderness Tourism Operator COVID-19 Operations Plan. Fully vaccinated foreign nationals may be authorized to travel to Nunavut provided that they meet specific entry and testing requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.</td>
</tr>
</tbody>
</table>
Most Parks Canada places are open and welcoming visitors with adjustments to access and services. Please consult the Parks Canada website for an updated list of specific Parks Canada locations with special instructions: https://www.pc.gc.ca/en/voyage-travel/securite-safety/covid-19-info#locations

Most provinces and territories have implemented a framework to guide reopening strategies catered to their individual circumstances. Since each province and territory is starting from a different baseline to implement the reopening of their local economy, the phases and stages are not congruent across jurisdictions. The table below outlines the current status of restrictions on tourism-related sectors as of February 17, 2022. Unless noted, persons must gather and business must operate with sufficient social distancing measures in place. Many destinations require non-medical masks to be worn and all visitors should plan on having masks ready if needed.

Please source this document as “COVID-19 Impact and Recovery Report: Travel Related Measures, Updated: February 17, 2022, Destination Canada”
Ontario is in Step 3 of the Roadmap to Reopen. Proof of identification and of being fully vaccinated against COVID-19 is required for people aged 12 and older to access certain businesses and settings. Limited exemptions apply. Find additional details here.

Ontario requires the use of the enhanced vaccine certificate with QR code for individuals and the Verify Ontario app for businesses in settings where proof of vaccination is required, with limited exceptions. The QR code can be used digitally or by printing a paper copy.

People must wear a mask or face covering that covers their mouth, nose and chin, with limited exceptions. Mask requirements are in place for indoor areas of businesses or organizations that are open, indoor organized public events, some outdoor public events or settings, and within 2 metres of any individual not part of their household.

As of January 31:
- Hotels, motels, lodges, cabins, cottages, resorts and other shared rental accommodations may open with conditions on indoor fitness centres or other indoor recreational facilities that are part of the business operations.
- Overnight camping at campgrounds and campsites, including in Ontario Parks, can open.
- Other restrictions may apply.

As of February 17:
- Restaurants, bars and other food or drink establishments without dance facilities can operate at 100% capacity.
- Indoor food and drink establishments with dance facilities, including nightclubs, can operate to maximum 25% capacity.
- Outdoor food or drink establishments where dance facilities are provided, including nightclubs, restocubs and other similar establishments, can operate to maximum 75% capacity.
- Other restrictions may apply.

Proof of identification and full vaccination is required for people aged 12 and older to access in-person service at all dining establishments.

Proof of vaccination is required for people aged 12 and older to access many activities and attractions. See the full list here.

As of February 17:
- All retail businesses can operate with 2-metre physical distancing in place.
- Concert venues, theatres and indoor spectator areas of facilities used for sports and recreational fitness activities require proof of vaccination for entry and can operate at maximum 50% capacity.
- Cinemas can operate at 100% capacity.
- Museums, galleries, aquariums, zoos, science centres, landmarks, historic sites, botanical gardens, amusement parks and similar attractions that opt in to require proof of vaccination to access indoor areas can operate at 100% capacity. Attractions that do not opt in to require proof of vaccination can operate with capacity limited in the indoor ticketed area to the number of visitors who can maintain a physical distance of at least 2 metres from others not in their group. Outdoor capacity limits have been lifted.
- The indoor areas of waterparks require proof of vaccination and can operate at 100% capacity.
- Tour and guide services and boat tours that opt in to require proof of vaccination can operate at 100% capacity in indoor areas. Tour and guide services and boat tours that do not opt in to require proof of vaccination can operate with capacity limited to the number of visitors who can maintain a physical distance of at least 2 metres from others not in their group in the indoor area of the tour or boat.
- Fairs, rural exhibitions and festivals that opt in to require proof of vaccination can operate at 100% capacity. Fairs, rural exhibitions and festivals that do not opt in to require proof of vaccination can operate with capacity limited to the number of visitors who can maintain a physical distance of at least 2 metres from others not in their group in the indoor area of the event facility.
- Casinos, bingo halls and other gaming establishments require proof of vaccination to access indoor areas of the facility and can operate at 100% capacity.
- Other restrictions may apply.
### Quebec

- **As of February 18:**
  - New Brunswick is in Level 1 of its Vaccine Implementation Plan.
  - Proof of full vaccination along with government-issued ID is required for people aged 12 and older.
  - Accommodations can resume regular operations.

- **As of February 12:**
  - Nova Scotia is in Phase 2 of its reopening plan.
  - Proof of full vaccination is required for people aged 12 and older.
  - Accommodations are open with capacity limits in place.

### New Brunswick

- **As of February 18:**
  - New Brunswick is in Level 2 of 3-level Winter Plan.
  - Proof of full vaccination along with government-issued ID is required for people aged 12 and older.
  - Accommodations can resume regular operations.

### Nova Scotia

- **As of February 14:**
  - Nova Scotia is in Phase 1 of its reopening plan.
  - Proof of full vaccination is required for people aged 12 and older.
  - Accommodations are open with capacity limits in place.

---

### Restaurants & Dining

- **As of February 12:**
  - Restaurants can operate at maximum 50% capacity indoors and 100% capacity outdoors, maximum of 10 people or the occupants of 3 households at each table. Tables must be separated by at least 1 metre. Food and beverage sales must be by 11pm and restaurants must close by midnight.
  - All bars, breweries and taverns remain closed.
  - As of February 20:
    - Bars, breweries and taverns can open to maximum 50% capacity.
    - People must remain seated.
    - Restaurants, bars, breweries and taverns must end food and beverage service at midnight and close by 1am.

- **As of February 18:**
  - Retail businesses can operate at the maximum capacity and outdoors have a reduced capacity up to 50%.
  - Proof of full vaccination is required for people aged 12 and older to access certain businesses and settings.

- **As of February 14:**
  - Retail businesses can operate at the maximum capacity and up to 25 people per table.
  - Proof of full vaccination is required for people aged 12 and older to participate in most events and activities that bring groups of people together.

### Activities & Attractions

- **As of February 7:**
  - Retail is limited to 50% capacity.
  - Public event venues (cinemas, sporting events, concert halls and special events) can open to maximum 50% capacity or up to 500 people indoors and maximum 1,000 people outdoors.
  - Zoos, aquariums, planetariums, botanical gardens and insectariums can open indoors to maximum 50% capacity and outdoors to maximum capacity.
  - Public health is lifting the capacity limit for private indoor and outdoor gatherings – with a recommendation that households limit indoor gatherings to 10 people or the occupants of 3 households and outdoor gatherings to 20 people or the occupants of 3 households.
  - Organized activities in outdoor public settings can have up to 50 people.
  - Non-essential public activities such as conventions, conferences and seminars remain suspended.
  - As of February 21:
    - Outdoor activities in indoor public settings can have up to 50 people.
    - Public activities such as conventions, conferences and meetings can resume to maximum 50% capacity or up to 500 people.

### Large Gatherings/Conferences

- **As of February 12:**
  - Public Health is lifting the capacity limit for private indoor and outdoor gatherings – with a recommendation that households limit indoor gatherings to 10 people or the occupants of 3 households and outdoor gatherings to 20 people or the occupants of 3 households.
  - Proof of full vaccination along with government-issued ID is required for people aged 12 and older to access certain businesses and settings.

- **As of February 18:**
  - Indoor informal gatherings are permitted with maximum 20 people. Indoor outdoor gatherings are permitted with maximum 50 people.
  - Venues can hold events; people must remain seated and masked at all times unless eating or drinking.

- **As of February 14:**
  - Indoor and outdoor informal gatherings can have up to 25 people from the same household or consistent social group and must maintain social distancing and masks.
  - Special events, sporting events, in-person performances and festivals hosted by a recognized business can have up to 50% of the venue’s capacity (indoors or outdoors) with masks worn at all times.
  - Approved large event venues can have maximum 50% of capacity up to 3,000 people (indoors or outdoors) with masks worn at all times.
  - Meetings and training events hosted by a recognized business can have up to 50% of the venue’s capacity (indoors or outdoors) with 2 metre distancing in place and masks worn at all times.
### Prince Edward Island

2. METHODOLOGICAL NOTES

I. Travel-Related Measures: In conjunction with provincial and territorial partners, Destination Canada has sourced information directly from provincial and territorial government websites; additional insights are provided by provincial and territorial partners where relevant or where information from official sources is incomplete. The intention for this section is to provide the latest available information as of the date of the report. Given the evolving nature of these measures and phased opening strategies, readers are encouraged to seek information from official government sources for the most current information.
