

# COVID-19 Impact and Recovery Report: Travel-Related Measures

Updated: March 17, 2022

This document provides an evergreen assessment of the situation in Canada. It has the following sections:

- Travel-Related Measures: A summary of the travel and tourism-related measures in place in each province and territory. Current travel restrictions and self-isolation requirements are also available on Destination Canada's website: <u>https://caen-keepexploring.canada.travel/covid-19-traveller-guidance</u>
- 2. Methodological Notes: An explanation of the methodologies in the different sections and relevant sources.

### **1. TRAVEL-RELATED MEASURES**

Please consult the Government of Canada website for the latest federal travel requirements: <u>https://travel.gc.ca/travel-covid</u>. Below is a summary of recent updates to federal travel requirements and advice:

- As of April 1: Pre-entry tests will no longer be required for fully vaccinated travellers entering Canada.
- Until April 1: A rapid antigen test taken 24 hours prior to a scheduled flight or a molecular test taken 72 hours
  prior to a scheduled flight or planned entry (via land or sea) is required for all travellers entering Canada,
  regardless of the length of trip. Fully vaccinated travellers may be randomly selected for testing upon arrival, but
  will no longer be required to quarantine while awaiting their test result.
- As of February 28: The Public Health Agency of Canada lifted its advisory to avoid non-essential travel internationally.
- Travellers aged 12 years and older, with very limited exceptions, are required to show their <u>Canadian COVID-19</u> proof of vaccination to depart from Canadian airports, on VIA Rail and Rocky Mountaineer trains, and on nonessential passenger vessels (e.g. cruise ships) on voyages of 24 hours or more departing from ports in Canada. To qualify as fully vaccinated, travellers must have received the full series of an accepted COVID-19 vaccine (or a full series of a combination of accepted vaccines), with the last dose at least 14 full days prior to the date of travel.

In addition to federal government travel requirements, individual provinces and territories have implemented measures on travel between provinces and territories. The table below outlines self-isolation requirements for domestic and foreign travellers entering into each province or territory, as well as restrictions on travel across provincial and territorial borders. Tracking these measures is challenging given the fluid nature of COVID-19. This information, collected by provincial and territorial tourism marketing authorities and relevant tourism departments, is current as of March 17, 2022.

## **Travel Measures**

	Traveller self-isolation required?	Travel restrictions?		
British Columbia	No self-isolation for domestic travellers entering British Columbia. No self-isolation upon entering British Columbia for <u>fully</u> <u>vaccinated</u> foreign nationals provided that they meet specific <u>entry and</u> <u>testing requirements</u> . Prince Edward Island <sup>4, 5</sup>	No self-isolation for <u>fully vaccinated</u> foreign nationals entering Prince Edward Island provided that they meet specific <u>entry and testing</u> <u>requirements</u> , with rapid testing on entry and on days 2 and 4. Unvaccinated children under 12 years of age travelling with fully vaccinated adults are no longer required to follow additional public health measures limiting activities.	Fully vaccinated foreign nationals can travel to Prince Edward Island provided that they meet specific <u>entry and testing</u> requirements. Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.	
	As of February 28: No self-isolation required for domestic travellers entering Newfoundland and Labrador.	As of February 28: No travel restrictions for domestic travellers entering Newfoundland and Labrador.	
Newfoundland and Labrador <sup>6</sup>	Fully vaccinated foreign nationals can enter Newfoundland & Labrador provided that they meet specific <u>entry and testing requirements</u> . Unvaccinated children under 12 years of age travelling with fully vaccinated adults are no longer required to follow additional public health measures limiting activities.	<u>Fully vaccinated</u> foreign nationals can travel to Newfoundland and Labrador provided that they meet specific <u>entry and testing</u> <u>requirements</u> . Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.	
	No self-isolation required for domestic travellers entering Yukon.	No travel restrictions for domestic travellers entering Yukon. Travellers should avoid travel between communities, and from	
Yukon <sup>7</sup>	No self-isolation upon entering Yukon for <u>fully vaccinated</u> foreign nationals provided that they meet specific <u>entry and testing requirements</u> . As of February 28, unvaccinated children under 12 years of age travelling with fully vaccinated adults are no longer required to follow additional public health measures limiting activities.	communities to Whitehorse, until further notice. Travellers are asked to follow these guidelines if they must travel to Yukon communities. Several First Nations governments and communities currently have travel advisories in place. If a First Nations government or community has not issued an advisory, travel responsibly and follow the <u>Safe 6 plus 1</u> .	
	The Government of Canada has <u>specific guidelines</u> for driving to or from Alaska through Canada. Read the State of Alaska's <u>health guidance for</u> <u>travellers during the COVID-19 pandemic</u> .	Fully vaccinated foreign nationals can travel to Yukon provided that they meet specific <u>entry and testing requirements</u> . Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.	
	As of March 1: No self-isolation required for domestic travellers entering the Northwest Territories although returning residents must file a <u>self-isolation plan</u> within 24 hours of arrival and non-residents must file <u>one</u> 24 hours in advance of arrival.	As of March 1: All domestic travellers can enter the Northwest Territories but must complete a <u>self-isolation plan</u> .	
Northwest Territories <sup>8</sup>	No self-isolation required for <u>fully vaccinated</u> foreign nationals entering the Northwest Territories provided that they meet specific <u>entry and testing</u> <u>requirements</u> and submit a mandatory <u>self-isolation plan</u> 24 hours in advance of arrival. Unvaccinated children under 12 years of age travelling with fully vaccinated adults are no longer required to follow additional public health measures limiting activities.	<u>Fully vaccinated</u> foreign nationals can travel to the Northwest Territories provided that they meet specific <u>entry and testing</u> <u>requirements</u> and must complete a <u>self-isolation plan</u> . Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.	
Nunavut <sup>9, 10</sup>		<b>As of March 14:</b> Non-essential travel to Gjoa Haven, Kugaaruk, Igloolik, Taloyoak and Kugluktuk is strongly discouraged.	
	No isolation required for travellers to Nunavut who are fully vaccinated and who have a Nunavut proof of vaccination certificate. Mandatory 10-day isolation for all other admitted travellers except those travelling directly from Churchill, Manitoba. No self-isolation upon entering Nunavut for <u>fully vaccinated</u> foreign nationals provided that they meet specific <u>entry and testing requirements</u> and are admitted to enter Nunavut. Unvaccinated children will not be able to forgo the mandatory 10-day self-isolation requirement.	Entry into Nunavut requires authorization from the territory's Chief Public Health Officer with an exception for travellers who are fully vaccinated and have a Nunavut proof of vaccination certificate. Authorization may be granted for: residents who are not fully vaccinated, critical workers, those travelling within the Common Travel Area of Churchill, Manitoba, and non-residents entering for family reunification, exercising Aboriginal or treaty rights, or engaging in wilderness tourism with an operator that has an approved Wilderness Tourism Operator COVID-19 Operations Plan.	
		<u>Fully vaccinated</u> foreign nationals may be authorized to travel to Nunavut provided that they meet specific <u>entry and testing</u> <u>requirements</u> . Entry will continue to be prohibited for foreign nationals who are not fully vaccinated.	

Most Parks Canada places are open and welcoming visitors with adjustments to access and services. Please consult the Parks Canada website for an updated list of specific Parks Canada locations with special instructions: <u>https://www.pc.gc.ca/en/voyage-travel/securite-safety/covid-19-info#locations</u>

Most provinces and territories have implemented a framework to guide reopening strategies catered to their individual circumstances. Since each province and territory is starting from a different baseline to implement the reopening of their local economy, the phases and stages are not congruent across jurisdictions. The table below outlines the current status of restrictions on tourism-related sectors as of March 17, 2022. Unless noted, persons must gather and business must operate with sufficient social distancing measures in place. Many destinations require non-medical masks to be worn and all visitors should plan on having masks ready if needed.

## **Tourism Related Measures**

	Current Phase/Stage	Hotels & Accommodation	Restaurants & Dining	Activities & Attractions	Large Gatherings/ Conferences
British Columbia	Until April 8, proof of full vaccination via the BC Vaccine Card is required for people aged 12 and older to access some events, services and businesses. ## 2. METHODOLOGICAL NOTES

I. Travel-Related Measures: In conjunction with provincial and territorial partners, Destination Canada has sourced information directly from provincial and territorial government websites; additional insights are provided by provincial and territorial partners where relevant or where information from official sources is incomplete. The intention for this section is to provide the latest available information as of the date of the report. Given the evolving nature of these measures and phased opening strategies, readers are encouraged to seek information from official government sources for the most current information.
